Memes Today Top:

The Playful Politics of Memes Mette Mortensen, Christina Neumayer, 2023-05-22 Memes work as rhetorical weapons and discursive arguments in political conflicts. Across digital platforms they confirm, contest and challenge political power and hierarchies. They simultaneously create social, distortion, hostility and a sense of community. Memes thus not only reflect norms but also work as a tool for negotiating them. At the same time, memes meld symbolic and cultural elements with technological functionalities, allowing for replicability and remixing. This book studies how memes disrupt and reimagine politics in humorous ways. Memes create a playful activity that follows a shared set of rules and gives a shared voice which may generate togetherness and political identities but also increase polarization. As their template travels, memes continue to appropriate new political contexts and to re-negotiate frontiers in the political. The chapters in this book allow us to chart the playful politics of memes and how they establish or push frontiers in various political, cultural and platform-specific contexts. Taken together, memes can challenge and regenerate populism, carve out spaces for new identity formations and create togetherness in situations of crises. They can also, however, lead to the normalization of racist discourses. This book will be of interest to researchers and advanced students of Media and Communication Studies, Information Studies, Politics, Sociology and Cultural Studies. It was originally published as a special issue of the journal Information Communication Society.

Online Virality Valérie Schafer, Fred Pailler, 2024-08-19 The book *Online Virality* edited by Valérie Schafer and Fred Pailler (C2DH, University of Luxembourg) aims to provide a comprehensive examination of online virality. It explores the many ways we can think about this modern phenomenon and analyse the circulation, reception and evolution of viral born digital content. Virality and content sharing always intertwine material, infrastructural, visual and discursive elements. This involves various platforms, stakeholders, intermediaries, social groups and communities that are constantly re-defining themselves. Regulation, curation and content moderation, politics as well as affects and emotions, fears, humour, empathy, hatred, are also at the core of online virality. The publication offers an interdisciplinary overview on online virality by including different types of scientific inputs such as precise case studies, various methodological approaches including close and distant reading, visual studies, discourse analysis, etc. as well as historical and socio-technical analyses. The book is organised around three main topics: Expressions and Genres, Mobilisations and Engagements, Circulation and Infrastructures. The first part explores the semiotics of virality, the diverse and creative forms of expression, specific genres, the relation to other media and the affective side of virality such as using humour or provocation. The second part focuses on the political dimension of memes and viral content and their use in the context of controversy or political and ideological opposition. Finally, the third part delves into the often understudied but essential side of virality by examining the role of platforms and their curation in short the infrastructural dimension of virality. These three parts allow us to question such fundamental notions linked to virality as, among others, circulation, reception, economy of attention, instrumentalisation and affect. This volume brings together authors

from various disciplines including semiotics history information and communication sciences computer science digital humanities media studies In addition the contributors approach the question via case studies that allow for a perspective that is not exclusively US and European centred Some chapters explore virality in Brazil Chile while the book also examines a wide variety of platforms YouTube Twitter Instagram TikTok video game platforms etc **The Pragmatics of Internet**

Memes Chaoqun Xie,2022-05-15 What is a meme What is in a meme What does living in with memes actually mean What do memes mean to human beings dwelling in a life world at once connected and fragmented by the internet and social media Answers to and ways of answering these and other meme questions that arise in social events represent human assistance in or resistance to meaning making A pragmatic perspective on internet memes as a way of seeing in social life experience offers a unique window on how meme matters in mediated inter actions turn out to be inextricably intertwined with human beings presencing and essencing in the life world Ultimately this volume seeks to reveal what and how serious if not unsayable concerns can be concealed behind the seemingly humorous carefree and colorful carnival of internet memes across cultures contexts genres and modalities This book will be of some value to anyone keen on the dynamics of memes and internet pragmatics and on critical insights that can be garnered in kaleidoscopic multimodal communication Originally published as special issue of Internet Pragmatics 3 2 2020

Film Authorship in Contemporary Transmedia Culture

Wikanda Promkhuntong,2025-10-01 Film Authorship in Contemporary Transmedia Culture The Paratextual Lives of Asian Auteurs examines film authorship in the transmedia era whereby film directors have become public figures through a wide range of textual material and performative practices The book draws on the notion of paratext and its related term palimpsest to bring forth the idea of self reflexive authorship as a method of examining the mediated past present and afterlife of East Asian filmmakers The first part of the book pays attention to materials surrounding film festivals multi platform distribution and cinephile fan creative practices which have been created rewritten and shared to foster and problematize the reputations of selected filmmakers The second part examines alternative modes of self projections and creative productions that address the filmmakers sense of selves and relations with the industry and the public Across different chapters discourses surrounding film authorship and East Asian cinema are revisited and expanded to highlight its multiple histories and possible futures

Genes Vs. Memes Walter A. Koch,1986 *Culture, Nature, Memes* Thorsten

Botz-Bornstein,2008 This collection of essays on cognition which involves continental as much as analytical approaches attempts to observe cognitive processes in three areas in culture in nature and in an area that can at least from some point of view be perceived as an oein between of culture and nature memes All authors introduce a certain dynamic input in cognitive theory as they negotiate between the empirical and the conceptual or between epistemology and the study of culture In all chapters culture nature and memes turn out to be dynamic in the sense of being non essentialist their significations and modulating functions always being multi dimensional The chapters shed new light on classical themes of cognitive theory as

problems of creation generation and emergence TM animals TM thoughts and beliefs TM minds and computing TM knowledge and its social dimension TM thoughts and emotions TM the innate state of lexical concepts TM and memetics and stylistics TM

Pet Nation Mark Cushing,2020-09-08 An inside look at the forces behind how our pets become treasured members of the family In the last 20 years pets have gone from the backyard to sleeping on our beds then showing up in every corner of America Pet Nation tells the story of this seismic shift and the economic media legal political and social dramas springing from this cultural transformation Since 1998 the pet population in the U S has almost doubled about two thirds of the country now owns a pet No longer left to wander the neighborhood dogs and cats eat special food get individualized medical attention and even fly in the cabin As founder of the Animal Policy Group Mark Cushing provides an inside look at the rise of Pet Nation tracking the myriad ways pets are acquired a Canine Freedom Train runs south to north reporting on pet rights legislation and the unseen problems that come with elevating their status pet healthcare revealing the truth and myths about large scale breeders and discovering that despite what many organizations would have us believe there is a shortage of dogs Insightful surprising and full of great stories Pet Nation opens our eyes to the big changes happening in front of us right now It shows us not only what our love of animals says about pets it shows us what it says about ourselves

[Adbusters](#) ,2001 [Forbes](#) ,2006-10 *The Hidden Psychology of Social Networks: How Brands Create Authentic Engagement by Understanding What Motivates Us* Joe Federer,2020-09-15 From the former Head of Brand Strategy at

Reddit comes a proven and thought provoking approach to the digital economy and how brands can create authentic engagement that is rooted in the fundamental motivations behind human psychology. Leading marketing practitioner and thought leader Joe Federer draws on evolutionary biology, anthropology, neuroanatomy, and psychology as well as more than a decade of hands on experience to explain why people act so differently in various online spaces and what they are seeking from participating in each one. With a framework based on Freud's Id, Ego, and Superego model of the human psyche, he demonstrates how the internet is a digital reflection of the collective human psyche and how different social networks correspond to different mindsets. Platforms like Reddit to the unfiltered Id, Facebook and Twitter to the managed Ego, and Instagram to the ideal Superego. In the same way you behave differently when you're home alone, out with friends, communicating with family or interacting with coworkers, people act and express themselves differently in these various online spaces. Context matters. Understanding this will enable you to develop and execute effective engagement strategies to reach your target audiences on each social network. Learn how to create content that drives sharing and word of mouth, how brands can fit natively into different types of social channels, how to balance branded social presences across different networks, why authenticity will only grow in importance to consumers. Fascinating and deeply compelling, *The Hidden Psychology of Social Networks* will equip you to make vastly more efficient use of your media buys, establish more thoughtful strategies, develop better creative, and in the end deliver more effective marketing that provides value.
