Mercy Killings Combat Suffering Combatants:

Mercy Killings in Combat Will M. Helixon, 2006 *Parameters*, 2014 Criminologies of the Military Ben Wadham, Andrew Goldsmith, 2018-06-28 This innovative collection offers one of the first analyses of criminologies of the military from an interdisciplinary perspective While some criminologists have examined the military in relation to the area of war crimes this collection considers a range of other important but less explored aspects such as private military actors insurgents paramilitary groups and the role of military forces in tackling transnational crime Drawing upon insights from criminology this book's editors also consider the ways the military institution harbours criminal activity within its ranks and deals with prisoners of war The contributions by leading experts in the field have a broad reach and take a truly global approach to the subject *Enemy Combatants, Terrorism, and Armed Conflict Law* David K. Linnan, 2008-01-30 With a renewed emphasis on national and homeland security the United States is once again seeking to balance the needs of the state with both the rights of its citizens as well as those of other nations This book represents an interdisciplinary approach to the legal dilemmas borne out by the war on terror against the specific background of Afghanistan Iraq and this new kind of conflict It is a strong contribution to a broader debate visible since 9 11 which will remain in the public eye for the foreseeable future It addresses the overlap between religion ethics armed conflict and law within the context of the current conflict While many issues in areas such as intelligence reconciliation of civil liberties dealing with terrorist threats and the permissible bounds of interrogation treatment of prisoners and laws governing armed conflict have long standing precedents under domestic and international law this war has challenged even long standing legal interpretations The contributors to this volume explore those precedents and contemporary challenges to them Now that traditional wars between nation states are no longer the rule the terrorist threat has gained credence popularly terrorism and its claimed breeding ground in failed states linked in practice to issues of intervention on the territory of states harboring such groups In military circles the idea of armed struggle between modern military forces and what were formerly called guerillas has now largely been replaced by asymmetric warfare and the concept of intelligence and preventive action interchangeably within U S borders and overseas Opposing views contemplate that different and presumably lower legal standards may apply in internal armed conflicts Such legal issues are visible under current circumstances of asymmetric warfare in conjunction with questions about prisoner status and detentions including the permissible bounds of interrogation versus torture following the Abu Ghraib prison scandal in Iraq but also the treatment at the Guantanamo Bay facility of alleged Al Qaeda captives from Afghanistan All of the contributors in this book explore the changing circumstances against which these contentious new legal issues now unfold The experts strike no consensus Indeed one of the work's many strengths can be attributed to the fact that the many facets of the ongoing debate are represented herein Mercy Killings in Combat The Jude The Jude Advocate Generals School, 2015-12-19 A Soldier who kills a gravely wounded combatant to end his suffering likely will be charged with

premeditated murder If convicted of premeditated murder the Soldier will be sentenced to life in prison there is no discretion Life in prison is the mandatory minimum sentence for a premeditated murder conviction A mandatory life sentence for combat related mercy killings is unjustifiable for three reasons First it subjects the Soldier to a punishment that does not correspond with the moral wrongfulness of the crime Second the mandatory minimum sentence constructively coerces the Soldier into a posture to plead guilty to a lesser charge to avoid the risk of the mandatory life sentence Third it deprives the Soldier of any meaningful sentencing case by making matters in mitigation and extenuation irrelevant Corporal Si Klegg and His "pard" Wilbur F.
