Metaphoric Worlds Conceptions Of A Romantic Nature:

Metaphoric Worlds Samuel R. Levin, 1988-01-01 Fictional Realities J. J. A. Mooij, 1993 This book is a study of the role of the imagination. It focuses on the imaginative use of language in literature, poetry and narrative prose but it also touches on some more comprehensive issues for the questions it discusses are questions regarding the relationship between mind reality and unreality. The first two chapters survey the thinking about the imagination in the history of philosophy. The main trends and the main problems are discussed particularly in respect of the positive or negative evaluation of imagination. The subsequent chapters investigate the role of the imagination from a closer point of view. How is it that imagination appears in literary art? Central topics of discussion are the nature of narrativity of fictional discourse and fictional objects of realistic fiction, of symbolism and metaphor. Moreover the similarities both real and imagined between literature and the other arts are explored. In all chapters attention is paid to the problem of the value of art and literary imagination. The last chapter addresses this issue head on. In particular it attempts to define the value of literature in relation to science.

Changing Religious Worlds Bryan Rennie, 2001-01-01 Assesses Mircea Eliade's contribution to the contemporary understanding of religion and the academic study of religion **Finding Metaphor in Grammar and Usage** Gerard Steen, 2007 Cognitive linguists have proposed that metaphor is not just a matter of language but of thought and that metaphorical thought displays a high degree of conventionalization. In order to produce converging evidence for this theory of metaphor a wide range of data is currently being studied with a large array of methods and techniques. *Finding Metaphor in Grammar and Usage* aims to map the field of this development in theory and research from a methodological perspective. It raises the question when exactly evidence for metaphor in language and thought can be said to count as converging. It also goes into the various stages of producing such evidence: conceptualization, operationalization, data collection and analysis, and interpretation. The book offers systematic discussion of eight distinct areas of metaphor research that emerge as a result of approaching metaphor as part of grammar or usage, language or thought and symbolic structure or cognitive process.

Cahiers suisses de littérature générale et comparée, 1997 *A Companion to Aesthetics* Stephen Davies, Kathleen Marie Higgins, Robert Hopkins, Robert Stecker, David E. Cooper, 2009-04-27 *A COMPANION TO AESTHETICS* This second edition of *A Companion to Aesthetics* examines questions that were among the earliest discussed by ancient philosophers such as the nature of beauty and the relation between morality and art while also addressing a host of new issues prompted by recent developments in the arts and in philosophy including coverage of non Western art traditions and of everyday and environmental aesthetics. The volume also canvases debates regarding the nature of representation, the relation between art and truth and the criteria for interpretation which are among the most hotly discussed topics in contemporary philosophy. In this extensively revised and updated edition 168 alphabetically arranged articles provide comprehensive treatment of the main topics and writers in aesthetics. Major additions include historical overviews from the prehistoric to the present and a

section on the individual arts A Companion to Aesthetics will serve students of philosophy literary criticism and cultural studies as well as the educated general reader both as a work of reference and with its many substantial essays as a guide to the best thinking about the arts from the ancient Greeks to the dawn of the twenty first century JEGP, Journal of English and Germanic Philology Gustaf E. Karsten,1990 Metonymy and Metaphor in Grammar Klaus-Uwe Panther,Linda L.

Thornburg,Antonio Barcelona,2009 with the advent of Cognitive Linguistics metonymy and metaphor are now recognized as being not only ornamental rhetorical tropes but fundamental figures of thought that shape to a considerable extent the conceptual structure of languages The present volume goes even beyond this insight to propose that grammar itself is metonymical in nature Langacker and that conceptual metonymy and metaphor leave their imprints on lexicogrammatical structure The Journal of Narrative Technique ,1997 James Beattie's The Minstrel and the Origins of Romantic Autobiography Everard H. King,1992 Using The Minstrel as a creative model Everard King illuminates the sources and nature of Romantic autobiography in the works of Burns Wordsworth Coleridge Shelley Keats Scott Byron and Chateaubriand
