**Handbook of Research on Empowering Early Childhood Educators With Technology**

Burris, Jade, Rosen, Dina, Karno, Donna, 2021-06-18 Computers and mobile technologies have become widely adopted as sought after tools in the field of education. The prevalence of technology in early childhood education (ECE) is increasing, and teachers both pre-service and in-service are using best practices to integrate tools effectively to improve teaching and learning within the field. This includes settings such as childcare centers, family childcare, and community programs that have both educators and administrators adapting to the use of technology. Therefore, it has become critical to research and explore the best practices of technology integration and successful strategies to improve the use of technology in ECE. The *Handbook of Research on Empowering Early Childhood Educators With Technology* examines best practices that focus specifically on those that facilitate the development of competencies in teaching young children (birth to age 8) and technology integration. The chapters include information on the foundations of technology in early childhood education, content-specific technology applications, developmentally appropriate practices (DAP) for learners using technology, and how to meet diverse learner needs with technology. The target audience for this book is early childhood professionals, teacher educators, pre- and in-service teachers in early childhood settings, faculty and researchers in the field of education, instructional technologists, childcare and elementary school administrators, early education policy organizations, and advocacy groups that are interested in the best practices and successful strategies for implementing technology in ECE.

*Research Anthology on Balancing Family-Teacher Partnerships for Student Success* Management Association, Information Resources, 2022-10-28

The partnership between families and teachers in education has been overlooked in the past to the detriment of students of all ages. This relationship can have a huge impact on the success of learners and must be examined further to ensure students receive the best education possible. The *Research Anthology on Balancing Family Teacher Partnerships for Student Success* examines the best practices and challenges of establishing and maintaining a successful relationship between teachers and families. It discusses the history of this relationship as well as future directions that must be considered. Covering key topics such as early childhood education, work habits, assessments, and mentorship, this major reference work is ideal for administrators, principals, industry professionals, researchers, scholars, academicians, practitioners, instructors, and students.

**Early Literacy Matters** Carol E. Canady, Robert Lynn Canady, 2020-11-29 Early Literacy Matters is an innovative action guide for elementary school leaders and instructional coaches dedicated to accelerating literacy performance in the early grades when prevention of reading difficulties matters most. As a unique father-daughter team with combined expertise in literacy education and instructional leadership, the authors share best practices for literacy success. Readers will learn how to establish and lead a literacy team, implement embedded professional development, utilize key assessments to frame daily instruction, and illustrate specific organizational and scheduling models needed to support systemic change based on the science of reading. Each chapter features reflection questions and explicit strategies and tools leaders can implement immediately in today's classrooms.
