Atmospheres and Shared Emotions Dylan Trigg, 2021-11-25 This book explores the role atmospheres play in shared emotion With insights from leading scholars in the field Atmospheres and Shared Emotions investigates key issues such as the relation between atmospheres and moods how atmospheres define psychopathological conditions such as anxiety and schizophrenia what role atmospheres play in producing shared aesthetic experiences and the significance of atmospheres in political events Calling upon disciplinary methodologies as broad as phenomenology film studies and law each of the chapters is thematically connected by a rigorous attention on the multifaceted ways atmosphere play an important role in the development of shared emotion While the concept of atmosphere has become a critical notion across several disciplines the relationship between atmospheres and shared emotion remains neglected The idea of sharing emotion over a particular event is rife within contemporary society From Brexit to Trump to Covid 19 emotions are not only experienced individually they are also grasped together Proceeding from the view that atmospheres can play an explanatory role in accounting for shared emotion the book promises to make an enduring contribution to both the understanding of atmospheres and to issues in the philosophy of emotion more broadly Offering both a nuanced analysis of key terms in contemporary debates as well as a series of original studies the book will be a vital resource for scholars in contemporary philosophy aesthetics human geography and political science

**Spatial Justice After Apartheid** Jaco Barnard-Naudé, Julia Chrissyostalis, 2022-08-25 This book considers the question of spatial justice after apartheid from several disciplinary perspectives jurisprudence law literature architecture photography and psychoanalysis are just some of the disciplines engaged here However the main theoretical device on which the authors comment is the legacy of what in Carl Schmitt's terms is nomos as the spatialised normativity of sociality Each author considers within the practical and theoretical constraints of their topic the question of what nomos in its modern configuration may or may not contribute to a thinking of spatial justice after apartheid On the whole the collection forces a confrontation between law's spatiality in a postcolonial era on the one hand and the traumatic legacy of what Paul Gilroy has called the colonial nomos on the other hand In the course of this confrontation critical questions of continuation extension disruption and rewriting are raised and confronted in novel and innovative ways that both challenge Schmitt's account of nomos and affirm the centrality of the constitutive relation between law and space The book promises to resituate the trajectory of nomos while considering critical instances through which the spatial legacy of apartheid might at last be overcome This interdisciplinary book will appeal to scholars of critical legal theory political philosophy aesthetics and architecture

Menopause Transitions and the Workplace Vanessa Beck, Jo Brewis, 2024-01-10 The symptoms of menopause transitions have profound implications for work and are in turn affected by work Despite this the topic is rarely discussed in management and organization studies Providing an overview of existing knowledge in the field of menopause in the workplace this collection re theorizes the management of human resources as it relates to the

connections between gender age and the body in the workplace environment with an intersectional analysis Offering theoretical frameworks from experts as well as possible practical approaches that can be implemented in workplaces to support women transitioning through menopause this is a go to reference for academics and policy makers working in the field

**Spatial Justice in the City** Sophie Watson, 2019-11-04 In the context of increasing division and segregation in cities across the world along with pressing concerns around austerity environmental degradation homelessness violence and refugees this book pursues a multidisciplinary approach to spatial justice in the city Spatial justice has been central to urban theorists in various ways Intimately connected to social justice it is a term implicated in relations of power which concern the spatial distribution of resources rights and materials Arguably there can be no notion of social justice that is not spatial Philippopoulos Mihalopoulos has argued that spatial justice is the struggle of various bodies human natural non organic technological to occupy a certain space at a certain time As such urban planning and policy interventions are always to some extent at least about spatial justice And as cities become ever more unequal it is crucial that urbanists address questions of spatial justice in the city To this end this book considers these questions from a range of disciplinary perspectives Crossing law sociology history cultural studies and geography the book's overarching concern with how to think spatial justice in the city brings a fresh perspective to issues that have concerned urbanists for several decades The inclusion of empirical work in London brings the political social and cultural aspects of spatial justice to life The book will be of interest to academics and students in the field of urban studies sociology geography planning space law and cultural studies

**Thinking About Clinical Legal Education** Omar Madhloom, Hugh McFaul, 2021-11-25 Thinking About Clinical Legal Education provides a range of philosophical and theoretical frameworks that can serve to enrich the teaching and practice of Clinical Legal Education CLE CLE has become an increasingly common feature of the curriculum in law schools across the globe However there has been relatively little attention paid to the theoretical and philosophical dimensions of this approach This edited collection seeks to address this gap by bringing together contributions from the clinical community to analyse their CLE practice using the framework of a clearly articulated philosophical or theoretical approach Contributions include insights from a range of jurisdictions including Brazil Canada Croatia Ethiopia Israel Spain UK and the US This book will be of interest to CLE academics and clinic supervisors practitioners and students

**Our Distance Became Water** Andreas Philippopoulos-Mihalopoulos, 2024-02-20 We knew very little with any certainty One thing though was confirmed by everyone that we were not the only ones flooded For all we knew every city across the globe had suffered a comparable fate As an unnamed city finds itself partially submerged below water a small community of friends and lovers is forced to adapt to a world that has been radically transformed An arresting vision of the consequences of ecological disaster Our Distance Became Water is at once lyrical moving and psychologically acute Endlessly inventive in both its style and its substance this is a singularly powerful literary response to environmental change
