Too Smart to Try Yelena Polyakova, 2025-06-16 Ningdu accidentally enrolled in a mecha military academy. Due to his poverty and frugality, he struggled to get by at school. Every night he stayed up late writing theoretical assignments for his classmates to earn money while sleeping through theory classes during the day. He managed to earn some extra income. During the underwater pressure test while his classmates were competing to see who could withstand the pressure and swim to shore fastest, Ning Du was submerged in water with a pile of clothes on his body, frantically washing them to save on laundry fees. During reaction time class while other students frantically dodged arrows fired by robots, Ningdu lay on the ground picking up arrows when no one was looking, then selling them for a good price to earn extra money. Later, the teachers' evaluation of her. A student with an extremely improper attitude sleeping during theory classes, always the last to surface during pressure tests and cowardly during reaction time classes, the robots shooting arrows at her made her crawl on the ground in fear. She's completely unfit. The teachers shook their heads, then pulled out the final exam score sheets for each subject to select a few outstanding students to participate in the district level competition. But they discovered that Ning was first in theory exams, first in underwater pressure resistance, and first in reaction speed. Her overall score was at the top of the list. The teachers Ning was sent to the central district to participate in a mecha competition. Since she couldn't afford to buy a mecha, she made one out of paper. She refused to attend training classes because the fees were too expensive and didn't practice with the mecha. Instead, she spent her days working as a part-time cleaner at the competition venue. During the competition, she was afraid the opponent would destroy her paper mecha, so she hesitated to act and kept the opponent. Later, district officials came to the school and vented their frustrations. Your student doesn't even use a proper mecha. She skips training and goes to the competition venue every day. While others are fighting, she's cleaning up under their noses. During the competition, she doesn't even fight, she just Teachers Oh we're so sorry We'll bring her back right away District officials Hmm you do need to bring her back After all the teacher of the champion has to attend the award ceremony Teachers What District officials Your student didn't fight at the competition She just hid from the other opponents making them exhaust themselves I don't know how she managed to dodge them so well They couldn't even hit her once Teachers
