Message of His Excellency Oliver Wolcott to the Senate & House of Representatives ... Connecticut. Governor (1817-1827 : Oliver Wolcott),1823 American Body Snatchers Richard S. Ross III,2024-08-07 At the beginning of the 19th century physicians teaching anatomy in New England medical schools expected students to have hands on experience with cadavers As the only bodies that could be dissected legally were convicted murderers this led to a lack of sufficient bodies for study These doctors and their students turned to removing the dead from graveyards and cemeteries for dissection The first medical school in Washington D C was founded in 1825 headed by a Massachusetts physician convicted of body snatching and made the practice commonplace in the area This history of body snatching in the 19th century focuses on medical schools in New England and Washington D C along with the religious moral and social objections during the time With research from contemporary newspapers medical articles and university archives topics such as state anatomy laws and their effects on doctors students and the poor who were the usual victims are covered as are perceptions of physicians and medical schools by the local communities *Message of His Excellency Oliver Wolcott to the Senate and House of Representatives of the State of Connecticut, at the Commencement of the Session of the General Assembly in New-Haven, May A.D. 1826* Connecticut.
