Impact and Role of Digital Technologies in Adolescent Lives Malik, Shaveta, Bansal, Rohit, Tyagi, Amit Kumar, 2021-11-26 Digital technology covers digital information in every form The world lives in an information age in which massive amounts of data are being produced to improve our daily lives This intelligent digital network incorporates interconnected people robots gadgets content and services all determined by digital transformation The role of digital technologies in children's adolescent's and young adult's lives is significantly increasing across the world New and emerging devices and services promise to make their lives easier as they create new ways of connecting creating and relaxing They also promise to support learning at home and school by enabling ready access to information and new and exciting pathways for young people to follow their interests Yet alongside these conveniences come trade offs with implications for privacy safety health and well being Impact and Role of Digital Technologies in Adolescent Lives provides a deeper understanding of how digital technologies impact the lives of children adolescents and young adults this includes the navigation of developmental tasks and the issues faced when utilizing these technologies Covering topics such as adolescent stress cyberbullying intellectual disabilities mental health obesity social media and mindfulness practices this text is essential for sociologists psychologists media analysts technologists academicians researchers students non government and government organizations and professors

Health Promotion in the Universities and Other Educational Settings Miguel Corbí, Antoni Aguilo, Carmen Gallardo Pino, Mario Del Libano, Carlos Emanuel Rodriguez-Diaz, Hiram V. Arroyo Acevedo, 2025-09-17 The promotion of health in universities is of great importance as it allows for the encouragement of healthy lifestyles and the prevention of diseases among students teaching staff and administrative personnel The university is a conducive environment for the promotion of healthy habits since firstly it is usually the moment when the students make decisions under their responsibility and secondly it is a place where

academic sports and social activities take place so it is also an ideal moment to promote changes that can be transferred to society and the rest of the individual's life. Health promotion in universities can cover several areas such as healthy eating, physical exercise, prevention of addictions, emotional and social mental health among others. It can also involve the entire university community from students to administrative and teaching staff. In the case of students, it is essential as it is a period of change and habit formation and the fact that they will be the future decision makers of society.
