University Journalism Principles and Practice combines practical advice with critical reflection and draws on Tony's 20 years experience as a journalist. It explains how to do journalism, how to be a journalist and how to relate all the well intentioned theory about the profession to doing the real job in the real world. Hold the Front Page: Novel user friendly layout, exhilarating and inspiring, seldom if ever have the practical and the theoretical been so well assimilated. Free Press: This excellent and easy to read book will help young journalists understand the real nature of today's media and their role within it. Jeremy Dear, NUJ General Secretary. Offering a wide ranging introduction to journalism and combining the experience and advice of practising journalists with insights gained by the academic study of journalism. Journalism Principles and Practice relates theory to practice throughout, spans print, broadcasting and online journalism, includes sections on news, features, sources, interviewing and ethics, includes a Style Guide for Journalists and a list of useful websites. In addition to explaining how to do journalism, each chapter introduces a range of more theoretical concepts designed to encourage reflective practice. However, it also uses the perspective of practitioners to question media theory.

Research Skills for Journalists Vanessa Edwards, 2016-03-02. Research Skills for Journalists is a comprehensive, engaging and highly practical guide to developing the varied skillset needed for producing well researched quality journalism across a range of platforms. Illustrated with original interviews and case studies, the book guides readers through a clear understanding of sources of news as well as illustrating the skills needed to undertake successful digital and non digital research and to conduct interviews for a variety of media. It examines the skills needed for basic data journalism and presents an in depth exploration of the different research skills specific to producing print and online text as well as those for broadcast and multimedia journalism. Key research skills explored in the book include: Developing digital research skills including researching through search engines, messages, boards, discussion groups and web forums; social media apps and using user generated content; Working with data including sourcing, auditing and analysing data; data visualisation and understanding the importance of accuracy and context; Essential non digital research skills including telephone technique, using libraries and working with librarians, understanding copyright, working with picture libraries and research services and producing freedom of information requests; Working directly with people to research stories including the power of persuasion, tracking down great contributors, managing and protecting sources, planning and managing interviews and interviewing vulnerable people; Researching for multimedia production of stories including researching a radio story, podcast or video story and planning for outside broadcasts. Research Skills for Journalists also explores specialist research skills needed for working overseas and investigates new areas which could be used for journalism research in the future. The book is illustrated with original contributions by journalists from a variety of backgrounds including veteran investigative journalist John Pilger, pioneering data journalist Simon Rogers and The Bureau of Investigative Journalism's award winning reporter Abigail Fielding Smith. It is an invaluable guide for students and practitioners of journalism to the skills needed for
