## Tiktok 2025 Returns:

**The Digital Frontier** Alessandra Massa, 2026-01-05 This book investigates how online platforms are reshaping the ways diplomacy and conflict unfold in the global arena. It explores how these infrastructures structure political visibility, influence strategic narratives and redefine how states act, interact and represent themselves online. Across five thematic chapters the volume examines platforms as both connective technologies and geopolitical actors integrating market and entertainment logics into international communication. It analyzes how conflict is reframed through algorithmic amplification, selective visibility and the commodification of participation and emotion while diplomacy becomes increasingly performative and entangled with digital mediation. Drawing on qualitative case studies the book demonstrates that digital infrastructures are not neutral tools but active agents in shaping global affairs. Combining theoretical insight with empirical evidence it offers a critical perspective on the platformization of international political communication and the new intersections between data visibility and power.

*Media, Migrants, and U.S. Border(s)* Rubria Rocha de Luna, Jacob Bañuelos Capistrán, 2026-01-01 The relationship between migration and media has become an essential topic of study due to its ethical and civil responsibility implications particularly in today's digitalized global environment. The media's narrative on world and regional politics, local and global economy, religion, war and civil conflicts affects the experience of migration and diaspora. In response, artistic representations and cultural interventions have become forms of activism, resistance and confrontation against the narrative of power. Likewise, the digital space began to be used more intensely as a place of activism for migrants and civil society interested in their human rights. For instance, digital archives such as Humanizing Deportation and social media are used to do activism: the first one through digital storytelling where migrants can express their deportation stories on video and the second one uses digital circulation to create community and as a call for action. Artistic Technological interventions such as Playas de Tijuana Mural 2019 use art and technology to protest the politics of migration by portraying family separation. Theater intermedial performances use virtual spaces to represent distance and the resistance to it. Cinema shows the social and political implications of their visual narrative. Finally, new practices, concepts and models in AI journalism and internet freedom have created a rhetoric that could benefit migrants. Migration is usually seen through numbers, statistics, graphics and quantitative data which dehumanizes migrants. With this book we aim to contribute to the knowledge of the phenomena through the lenses of a more humanistic approach to activism in digital media in the Hispanic world. We propose chapters that explore the activism of migrants and civil society committed to them from a critical perspective. This book intended to be read by students, researchers and the public interested in migration presents interdisciplinary approaches to activist narratives, art and digital. It explores diverse types of migrations and related phenomena such as deportation, voluntary return, caravans, the Cuban diaspora, US childhood arrivals and the particularities of the Southern U.S. border. These topics are analyzed in essays on race, politics, theater, film, music, painting, journalism, multimedia, digital archives, social media.

storytelling and artificial intelligence In the abstracts you will find diverse perspectives on how digital media act as platforms that allow horizontal activism which is a direct response at the same level as the rhetoric of power Likewise the proposed essays enable us to reflect on the role of arts and media in favoring the expression of the migrant community and those who share a common feeling Still in the same way we will see how digital media if misused can also harm vulnerable communities Work by newer and established migration studies digital culture scholars and scholars from both sides of the US Mexico border and other latitudes is incorporated providing a comprehensive overview of the intersection between migration media and arts in Latin America The book will consist of an Introduction and 13 chapters divided into three sections 1 Media and Digital Media Artists Activism 2 Migrant Activists Online and 3 Activism through New Constructive Practices Editors Rubria Rocha de Luna Postdoctoral Researcher Tecnológico de Monterrey Jacob Baez Capistrán Professor Tecnológico de Monterrey

*#okBoomer: My TikTok experiment & what marketers should know about the platform!* Markus Rach,2020-03-24 From 0 to over 27 million views in less than 6 weeks A TikTok experiment by a

marketing expert on the fastest growing social media platform on the planet TikTok. TikTok is one of the fastest social media platforms of 2018, 2019 and surely 2020. It is approaching the 1 billion monthly active user mark and setting new records on almost any level. Its rocket like user growth gets much media attention. But who is behind TikTok? What makes this app so special? What is its addictive formula to keep users for hours on the platform? Markus Rach, a marketer, entrepreneur, researcher, lecturer, husband, and dad, set out to answer these questions. To do so, he engaged in a TikTok experiment. On January 14, 2020, Markus created a TikTok profile with the objective to get a TikTok upload with 1 million views. Although it took him 6 weeks to achieve his goal, his account, the *marketing\_guy*, has now over 30 million views, over 2.8 million likes, multiple TikToks with millions of views, and over 50,000 TikTok fans. Ok, for a boomer right? In this book, Markus shares his experience and learnings from this unique experiment. He looks at TikTok from a marketer's perspective. Answering the very questions marketers have in their mind when thinking about TikTok: Is TikTok relevant for me? Should I join TikTok? How does TikTok work? Isn't it just an app for 13-year-old teens? How can I create a TikTok? Will I get views and how? All of these questions were answered in 7 chapters and to great detail. It also addresses why marketers should not just engage in advertising on the platform but understand the platform first. At the same time, this book documents the experiment's dark side: The emotional side, The race for content and ideas, The emotional twist to wait for views to go up, The happiness is they do and the disappointment if they don't. This book also deals with advertising on the platform. One brand got almost 4 billion views on their sponsored hashtag challenge. Others are less successful. Some brands even fail to setup their account. Some just throw money at influencers and others miss to understand the platform's culture. It reveals what went wrong with marketing. And how you can become a kick ass marketer on the platform. Understand the platform, get your hands dirty, get over yourself and don't forget there are teens with 35 million followers and 2.2 billion likes on the platform; they don't have an agency nor a department full of degree educated marketers. Your time to get on the platform is now. Want to be in my TikTok, the *marketing\_guy*?
