**Handbook of Family Therapy** Thomas L. Sexton, Jay Lebow, 2015-12-07 Integrative research based multisystemic these

words reflect not only the state of family therapy but the nature of this comprehensive handbook as well. The contributors all well recognized names who have contributed extensively to the field accept and embrace the tensions that emerge when integrating theoretical perspectives and science in clinical settings to document the current evolution of couples and family therapy practice and research. Each individual chapter contribution is organized around a central theme that the integration of theory, clinical wisdom and practical and meaningful research produce the best understanding of couple and family relationships and the best treatment options. The handbook contains five parts. Part I describes the history of the field and its current core theoretical constructs. Part II analyzes the theories that form the foundation of couple and family therapy chosen because they best represent the broad range of schools of practice in the field. Part III provides the best examples of approaches that illustrate how clinical models can be theoretically integrative, evidence based and clinically responsive. Part IV summarizes evidence and provides useful findings relevant for research and practice. Part V looks at the application of couple and family interventions that are based on emerging clinical needs such as divorce and working in medical settings. *Handbook of Family Therapy* illuminates the threads that are common to family therapies and gives voice to the range of perspectives that are possible. Practitioners, researchers and students need to have this handbook on their shelves both to help look back on our past and to usher in the next evolution in family therapy.

*Measures for Clinical Practice: A Sourcebook* Kevin Corcoran, Joel Fischer, 2000-06. In *Measures for Clinical Practice* Volume 1 Couples, Families and Children and Volume 2 Adults Corcoran and Fischer provide an extensive collection of more than 400 rapid assessment instruments (RAIs) including many questionnaires and scales which assess virtually any problem commonly encountered in clinical practice. Corcoran and Fischer have revised this edition to reflect new research and contemporary clinical practices. They include new scales and materials in areas such as assessment in culturally diverse populations and measurement in managed care systems as well as the best instruments updated from the previous editions. Brief and easy to administer these best practice measures will be useful for all types of therapeutic and theoretical orientations. All instruments are actually reprinted in the book and are carefully introduced and evaluated to aid in their selection. Corcoran and Fischer explain the principles of measurement and how to apply them in practice.

THE FAMILY ASSESSMENT HANDBOOK is a basic practice guide for social work students and beginning human service

professionals of how to do a family assessment for case intervention. It is based on person environment or family systems theory drawing from evidence based research for guiding practice decisions. This practical book presents the interplay of social work concepts values and skill dilemmas presented using case studies from the author's practice experience. By developing a family journal students can apply family systems thinking theory and concepts. The book is conceptualized as three teaching and learning units. Part One addresses the family systems assessment model. Part Two focuses on self assessment and critical thinking through exploring the student's family system. Part Three includes four case studies.
