The rise of social media altered media platforms, evolving legislative environments and new models of communication have altered not only the working environments of public relations and the news and entertainment media but also many aspects of how these industries work together. **Media Relations** provides a practical and thorough introduction to media work in this changing environment. Based on a solid understanding of media culture and theory, Jane Johnston shows how to steer a path between the technical and human elements of media relations. She drills down into the different types of media, analysing their applications, strengths and weaknesses, and shows how to target your message to the right media outlets, whether national television, community radio, celebrity magazines or influential blogs. This second edition has been revised throughout and includes new case studies and new chapters on digital and social media, media campaigns and legal and ethical considerations.

Recent technological developments are covered and print, television and electronic media are compared.

Included in the book are contributions and interviews with seasoned Public Relations subject matter experts who share their experience based insights into how to enact effective media relations. This book also includes contributions from some of the leading Public Relations scholars in the world today. Finally, this book also includes contributions from several journalists and prominent professors of journalism to offer a rare insight from the other perspective that far too many PR students and PR practitioners have not taken the time to contemplate. Readers may also want to seek out additional training for media relations and working with the media, including professionally overseen simulation activities where the PR practitioner is asked sample questions in front of rolling cameras and pressed by persistent queries of reporters followed by skillful debriefing to improve their performance.

Journalism and PR John Lloyd,Laura Toogood,2014-11-18 Public relations and journalism have had a difficult relationship for over a century characterised by mutual dependence and often mutual distrust The two professions have vied with each other for primacy journalists could open or close the gates but PR had the stories the contacts and often the budgets for extravagant campaigns The arrival of the internet and especially of social media has changed much of that These new technologies have turned the audience into players who play an important part in making the reputation and the brand of everyone from heads of state to new car models vulnerable to viral tweets and social media attacks Companies parties and governments are seeking more protection especially since individuals within these organisations can themselves damage even destroy their brand or reputation with an ill chosen remark or an appearance of arrogance The pressures and the possibilities of the digital age have given public figures and institutions both a necessity to protect themselves and channels to promote themselves free of news media gatekeepers Political and corporate communications professionals have become more essential and more influential within the top echelons of business politics and other institutions Companies and governments can now must now become media themselves putting out a message 24 7 establishing channels of their own creating content to attract audiences and reaching out to their networks to involve them in their strategies Journalism is being brought into these new more influential and fast growing communications strategies And as newspapers struggle to stay alive journalists must adapt to a world where old barriers are being smashed and new relationships built this time with public relations in the driving seat The world being created is at once more protected and more transparent the communicators are at once more influential and more fragile This unique study illuminates a new media age **Effective Media Relations** Michael Bland,Alison Theaker,David W. Wragg,2000 The power of the media is unquestionable the dramatic effect it can have on public opinion and decision making is quite unique Knowing how to use the media effectively is an essential part of the public relations practitioner s repertoire of skills In this second edition of Effective Media Relations three public relations professionals give clear practical guidance on how to work with journalists to get the best possible media coverage In Part 1 Alison Theaker looks at the media context and provides an overview of the law ownership ethics new technology and media evaluation In Part 2 David Wragg looks at the opportunities that are available in the written press and gives practical advice on how to work with them Michael Bland takes a behind the scenes look at broadcast media in Part
