[Latin Politics, Global Media](#) Elizabeth Fox,Silvio Waisbord,2009-09-15 The globalization of media industries that began during the 1980s and 1990s occurred at the same time as the establishment of or return to democratic forms of government in many Latin American countries In this volume of specially commissioned essays thirteen well known media experts examine how the intersection of globalization and democratization has transformed media systems and policies throughout Latin America

Following an extensive overview by editors Elizabeth Fox and Silvio Waisbord the contributors investigate the interaction of local politics and global media in individual Latin American countries Some of the issues they discuss include the privatization and liberalization of the media the rise of media conglomerates the impact of trade agreements on media industries the role of the state the mediaization of politics the state of public television and the role of domestic and global forces The contributors address these topics with a variety of theoretical approaches combining institutional historical

economic and legal perspectives **Globalization and Media Policy** NA NA,2016-09-23 This book takes a fresh look at media and communications policy and provides a comprehensive account of issues that are central to the study of the field It moves beyond the specifics of regulation by examining policy areas that have proved to be of common concern for societies across different socioeconomic realities It also seeks to address profound gaps in the study of policy by demonstrating the centrality of historical social and political context in debates that may appear solely technical or economic Media Policy and Globalization covers the institutional changes in the communications policy arena by examining the changing role of the state

technology and the market and the role of civil society It discusses actual policy areas in broadcasting telecommunications and the information society and examines the often overlooked normative dimensions of communications policy Features

Provides a cross disciplinary critical perspective of the politics of communications policy making in a global context Explores
