Media Control Robert E. Gutsche, Jr., 2015-10-22 Media Control News as an Institution of Power and Social Control challenges traditional and even some radical perceptions of how the news works. While it's clear that journalists don't operate objectively, reporters don't just cover news but they make it. Media Control goes a step further by arguing that the cultural institution of news approaches and presents everyday information from particular and dominant cultural positions that benefit the power elite. From analysing how the press operate as police agents by conducting surveillance and instituting social order through its coverage of crime and police action to bolstering private business and neoliberal principles by covering the news through notions of boosterism, Media Control presents the news through a cultural lens. Robert E. Gutsche Jr. introduces or advances readers applications of critical race theory and cultural studies scholarship to explore cultural meanings within news coverage of police action, the criminal justice system and embedding into the news democratic values that are later used by the power elite to oppress and repress portions of the citizenry. Media Control helps the reader explicate how the power elite use the press and the veil of the Fourth Estate to further white ideologies and American Imperialism.

Media Control Noam Chomsky, 2002-09-03 Noam Chomsky's back-pocket classic on wartime propaganda and opinion control begins by asserting two models of democracy: one in which the public actively participates and one in which the public is manipulated and controlled. According to Chomsky, propaganda is to democracy as the bludgeon is to a totalitarian state and the mass media is the primary vehicle for delivering propaganda in the United States. From an examination of how Woodrow Wilson's Creel Commission succeeded within six months in turning a pacifist population into a hysterical war mongering population to Bush Sr's war on Iraq, Chomsky examines how the mass media and public relations industries have been used as propaganda to generate public support for going to war. Chomsky further touches on how the modern public relations industry has been influenced by Walter Lippmann's theory of spectator democracy in which the public is seen as a bewildered herd that needs to be directed not empowered and how the public relations industry in the United States focuses on controlling the public mind and not on informing it. Media Control is an invaluable primer on the secret workings of disinformation in democratic societies.
