Emmy Noether

Emmy Noether

Emmy Noether was a brilliant mathematician from Germany. She was born in 1882 and loved solving math problems, even when she was a child.

At that time, most women were not allowed to study or teach at universities, but Emmy didn't let that stop her. She kept learning and working hard because she loved math so much.

Emmy Noether made important discoveries in algebra and in the math behind physics. One of her biggest ideas, called Noether's Theorem, helps scientists understand how the universe works—especially things like energy, motion, and time.

Even famous scientists like Albert Einstein admired her work! They said she was one of the smartest people in math.

Today, Emmy is remembered not only for her amazing ideas, but also for being a pioneer someone who opened the door for more women to study and teach math and science.
