McLuhan in Space Richard Cavell, 2002 *McLuhan in Space* Richard Cavell, 2002-01-01 Demonstrates how McLuhan extended insights derived from advances in physics and artistic experimentation into a theory of acoustic space which he then used to challenge the assumptions of visual space that had been produced through print culture *The Legacy of McLuhan* Lance Strate, Edward Wachtel, 2005 Marshall McLuhan a central figure in the fields of communication studies and media ecology is one of the most important and influential intellectuals of the twentieth century This volume of original essays brings together 29 leading experts from a wide variety of academic disciplines and from the media professions to explore assess critique and extend McLuhan's rich and controversial legacy The contributors to this anthology address such diverse areas as communication studies journalism literature art and art history archeology computer science digital media philosophy theology law history psychology sociology political science and cultural studies The Legacy of McLuhan goes further than any previous study in showing the broad and far reaching impact of the thought the publication and the life of Herbert Marshall McLuhan BOOK JACKET **Perspectives on Culture, Technology and Communication** Casey Man Kong Lum, 2006 This book is an introduction to media ecology as a theory group that encompasses a coherent body of canonical literature and perspectives on understanding culture technology and communication It examines the various facets of media ecology's development since the turn of the 20th century as an intellectual tradition and how it has evolved into being through an interlocking network of researchers from multidisciplinary backgrounds such as behavioral sciences classics cultural and structural anthropology information and systems theory history of technology media and culture and so on Specifically the volume clearly explains some of media ecology's defining ideas theories or themes about the interrelationship among culture technology and communication the thinkers behind these ideas the social political and intellectual contexts in which these ideas came into being as well as how the reader may use these ideas in our times

University of Toronto Quarterly University of Toronto, 2003 **Remediating McLuhan** Richard Cavell, 2025-10-01 While current scholarly interest has assured Marshall McLuhan's 1911-80 foundational status as a media theorist much room still exists for further exploration of his writings which have taken on additional layers of significance in our contemporary digital moment Holding that media were extensions of the human McLuhan also posited that the human was a product of technology Ranging across fields as diverse as art history biotechnology and beyond this collection of essays considers McLuhan's ground breaking approach within a number of new contexts and explores the distinguishing features of his media theory *Marshall McLuhan: Theoretical elaborations* Gary Genosko, 2004 **New Formations**, 2005 Regionalism in the Age of Globalism: Forms of regionalism Lothar Hönnighausen, 2005 Canadian Book Review Annual Joyce M. Glenn Gould Mark Kingwell, 2009 Glenn Gould one of the twentieth century s most renowned classical musicians was also known as an eccentric genius solitary headstrong a hypochondriac virtuoso Abandoning stage performances in 1964 Gould concentrated instead on mastering various media recordings radio television and print His sudden death at age fifty stunned the world but his music and legacy continue to inspire Philosopher and critic Mark Kingwell regards Gould as an innovative thinker whose ideas about music governed his life But those ideas were contradictory mischievous and deliberately provocative Just as Gould played twenty one takes to record the opening aria in the famed 1955 Goldberg Variations Kingwell offers twenty one takes on Gould s life Each version offers a different interpretation of the man but in each Kingwell is sensitive to the complex harmonies and dissonances that sounded throughout the life of the great Gould

The Surface of Meaning Robert Bringhurst, 2008 The design and manufacture of books can tell as much about a people or a culture as the ambience of its streets and the architecture of its buildings In our everyday lives books surround us even if we are among the many who never read another one after high school Their very jacket design asks us to make meaning of their presence and when we open them the layout of words and stories within their covers makes us readers even before we begin to read To Robert Bringhurst typographer poet and writer the presence of books and the story of books in Canada are preludes to understanding our culture From the tattered book of Canadian poetry your moody cousin carried everywhere to the pristine hardcover book of Atwood s latest work in your brainy co worker s hands book design says much about who and where we are as Canadians In The Surface of Meaning Robert Bringhurst takes us on another of his walking tours this time through the bramble of English and French Canadian books and book design from the mid 18th Century to the present day Along the way he discovers a true image trove of identity culture and history And he does what no other work on books and publications does He creates a truly national survey of Canadian books by bringing Canada s long history of Aboriginal story telling into a context of book It is a context that goes into the depths of our prehistory far beyond the printed page The Surface of Meaning is a tribute to Canadian books and publishing It is irresistible to readers who love books as well as to designers and others who may simply prefer to look at them

Interdisciplinary Measures Graham Huggan, 2008 Where now for postcolonial studies That is the central question in this new volume from one of the field s most original thinkers Huggan s answer is interdisciplinarity and here he sets out a series of conversations between literary studies and other disciplines notably geography environmental studies history and anthropology Huggan aims to establish an alternative trajectory through the field of postcolonial literary cultural studies that is alert to similar

kinds of work being done in and across other disciplines and reflects on possible futures for postcolonial studies that move beyond *New Makers of Modern Culture* Justin Wintle, 2007 *New Makers of Modern Culture* will be widely acquired by both higher education and public libraries Bibliographies are attached to entries and there is thorough cross referencing

Writing on the Edge, 2010 **Echoes and Reflections** Lance Strate, 2006 The author describes the interdisciplinary communication centered field of media ecology the study of media as environments a field that encompasses the study of technology symbol systems and aesthetic form in addition to traditional conceptions of media and mediation This book provides the first comprehensive overview of the field followed by a case study concerning the relationship between modes of communication and constructions of the self *Science & Public Policy*, 2003 Canadian Review of Comparative Literature, 2002 **The Gould Variations** Juha Markus Mantere, 2012 This book focuses on three aspects in Glenn Gould's 1932 1982 musical thought and practice Gould's embrace of music technology his notions of the ontology of music and musical interpretation and the place of his thought in Canadian intellectual history Focusing not only on Gould's writings on music technology but also on those of Marshall McLuhan 1911 1980 and Jean Le Moyne 1913 1996 this book provides a fresh perspective on Gould's thinking which was embedded in and keenly alert to the intellectual world outside music The book also touches on Gould's public reception his national iconicity in Canadian literature and Hollywood movies Gould's stardom is discussed as a phenomenon more commonly associated with contemporary popular culture
