public service broadcasting and network communication to web 2.0 and citizen journalism. With helpful features including an extensive glossary, further reading and suggestions for discussion, this third edition provides an essential resource for all those studying media and communication. **Media, Communication, Culture** James Lull, 2013-05-02. Media Communication Culture offers a bold and comprehensive analysis of developments in the field amidst the effects of postmodernism and globalization. James Lull, one of the leading scholars in the discipline, draws from a wide range of social and cultural theory, including the work of John B. Thompson, Thomas Sowell, Nestor Garcia Canclini, Anthony Giddens, and Samuel P. Huntington, to formulate a well-balanced and highly original account of key contemporary developments worldwide. The first edition of Media Communication Culture became a well-established introductory text. For this new edition, coverage has been expanded from six to ten chapters and has been thoroughly updated to include all new developments in the field. In his familiar and accessible style, Lull brings to life a diverse range of examples and mini case studies which will prove invaluable to the reader. These range from the hip-hop hybrids of New Zealand's Maori youth and the vastly divergent meaning of race and culture in Brazil and the United States to the global impact of McDonalds and Microsoft. Complex theoretical ideas such as globalization, symbolic power, popular culture, ideology, consciousness, hegemony, social rules, media audience, cultural territory, and superculture are explained in a clear and engaging way that challenges traditional understandings. By connecting major streams of theory to the latest trends in the global cultural mix, the book provides a fresh and unsurpassed introduction to media communication and cultural studies. It will prove essential reading for undergraduates and above in the fields of media studies, communication studies, cultural studies, and the sociology of culture.

*International Media Communication in a Global Age* Guy Golan, Thomas Johnson, Wayne Wanta, 2009-09-10. This volume provides a comprehensive examination of key issues regarding global communication, focusing particularly on international news and strategic communication. It addresses those news factors that influence the newsworthiness of international events, providing a synthesis of both theoretical and practical studies that highlight the complicated nature of the international news selection process. It also deals with international news coverage, presenting research on the cross-national and cross-cultural nature of media coverage of global events in the interdisciplinary context of research on political communication, war coverage, new technologies, and online communication. The work concludes with a focus on global strategic communications in the age of globalization, global economies, and cross-national media ownership. Chapters here provide readers with some of the most up-to-date research on international advertising, public relations, and other key issues in international communications. With contributions from many of the leading scholars in the field of international media communication research, this collection presents a valuable resource for advancing knowledge and understanding of the complicated international communication phenomenon. It will be of value to upper-level undergraduates and graduate students in mass media and communication programs and to scholars whose research focuses on global communication research. *The*

*History of Media and Communication Research* David W. Park, Jefferson Pooley, 2008 Strictly speaking James Carey wrote there is no history of mass communication research This volume is a long overdue response to Carey s comment about the field s ignorance of its own past The collection includes essays of historiographical self scrutiny as well as new histories that trace the field s institutional evolution and cross pollination with other academic disciplines The volume treats the remembered past of mass communication research as crucial terrain where boundaries are marked off and futures plotted The collection intended for scholars and advanced graduate students is an essential compass for the field
