Popular Science ,1991-10 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better *Tools for Innovation* Arthur B. Markman,Kristin L. Wood,2009-08-13 It is widely known that innovation is crucial to sustain success in business government and engineering But capturing the effective means of fostering innovation remains elusive How can organizations actively promote innovation which arises from a complex combination of cognition and domain expertise Researchers across an array of fields are studying innovation with exciting new findings suggesting that science is beginning to understand how it can be cultivated It is now more important than ever for seemingly distant fields to share conclusions and in concert translate them into viable applications In this unique and exciting collaboration engineers cognitive scientists psychologists computer scientists and marketers explore the practical methods that support innovation and creative design from different ways of thinking and conceptualizing to computer based tools The authors present research on processes as well as on the evaluation of existing methods Their lessons drawn are at the forefront of the interdisciplinary movement to use science to help organizations thrive Working Mother ,1999-10 The magazine that helps career moms balance their personal and professional lives
