Painless Reading Comprehension Barron's Educational Series, Darolyn "Lyn" Jones, 2021-06-01 Learning at home is now the new normal. Need a quick and painless refresher? Barron's Painless books make learning easier while you balance home and school. Reading comprehension gets easier as students learn what kind of reader they are, discover how to keep facts in their head, and much more. Titles in Barron's extensive Painless Series cover a wide range of subjects as they are taught at middle school and high school levels. Perfect for supporting Common Core Standards, these books are written for students who find the subjects somewhat confusing or just need a little extra help. Most of these books take a lighthearted, humorous approach to their subjects and offer fun exercises including puzzles, games, and challenging Brain Tickler problems to solve. Bonus Online Component includes additional games to challenge students, including Beat the Clock, a line match game, and a word scramble.

Python for Accounting and Finance Sunil Kumar, 2024-06-26 This book is a comprehensive guide to the application of Python in accounting, finance, and other business disciplines. This book is more than a Python tutorial; it is an integrative approach to using Python for practical research in these fields. The book begins with an introduction to Python and its key libraries. It then covers real-world applications of Python, covering data acquisition, cleaning, exploratory data analysis, visualization, and advanced topics like natural language processing, machine learning, predictive analytics, and deep learning. What sets this book apart is its unique blend of theoretical knowledge and real-world examples, supplemented with ready-to-use code. It doesn't stop at the syntax; it shows how to apply Python to tackle actual analytical problems. The book uses case studies to illustrate how Python can enhance traditional research methods in accounting and finance, not only allowing the reader to gain a firm understanding of Python programming but also equipping them with the skills to apply Python to accounting, finance, and broader business research. Whether you are a PhD student, a professor, an industry professional, or a financial researcher, this book provides the key to unlocking the full potential of Python in research.

Classroom Connect Newsletter, 2002 *Remaking Root: Modular Learning Theory* by Jason Changkyu Kim, Edition 1, September 2021 Jason Changkyu Kim, A behemoth of a textbook that offers over 360 pages of lesson plans, activities, and worksheets for Young Learners and Adults Learning English as a Second Language. *Handbook of Research on Virtual Training and Mentoring of Online Instructors* Keengwe, Jared, 2018-07-06 To meet the dynamic academic demands of twenty-first-century digital learners, many institutions of higher learning are offering more online classes than ever before that are accessible to both traditional and non-traditional learners. As such, a growing demand for online courses implies that participating institutions provide faculty with appropriate professional development programs to ensure the design and delivery of quality online courses. The Handbook of Research on Virtual Training and Mentoring of Online Instructors is a critical scholarly resource that highlights the issues, challenges, and online engagement experiences to enhance effective teaching and learning in this learning environment.
