Saving Our Service Academies Bruce Fleming,2024-01-09 Once proud citadels of virtue the US military academies have lost their way and are running on fumes They need to be fixed before it s too late Saving Our Service Academies covers one man s unrelenting thirty year fight with the military bureaucracy to instill qualities of force and thoughtfulness in officers to be to show young men how to be adults with other men and women and to show young women how to deal with the men Bruce Fleming has spent over thirty years teaching midshipmen and future officers at the US Naval Academy in Annapolis This position was both a dream job and a nightmare for the enthusiastic athletic young Fleming He found in the thousands of midshipmen he taught mentored and exercised with for three decades a heartbreaking waste of potential as promising officers to be lapsed into apathy and cynicism because of the dispiriting reality behind the gleaming facade of the Naval Academy What happened to duty honor and country at Annapolis These values have disappeared in the wake of changes in the world such as the rise of ROTC and the increase in expense of civilian colleges the service academies are free to the students and in the attempt to use the service academies as experiments in trendy social engineering A staunch advocate for military strength Fleming shows how the smoke and mirrors of service academies produce officers who are taught to say SIR YES SIR rather than to have the guts to say things their commanding officer doesn t want to hear Is that why the US hasn t won a war since World War II By writing op eds about the waste fraud and abuse of government and taxpayer money Fleming put a target on his back that the USNA administration used to fire him in 2018 despite being a tenured civilian professor He was reinstated by a federal judge in 2019 The service academies are government programs that no longer fill the needs for which they were created and so like all government programs can be re examined Indeed as Fleming argues they teach blind obedience in officers rather than informed and respectful questioning and so sap our military strength rather than increasing it They need to be re imagined not as stand alone undergraduate institutions that wall off future officers in an increasingly untenable isolation from the country they are to defend but either be combined with the officer commissioning sources that currently produce over 80 percent of our new officers or re purposed to post civilian college training institutions
