*Trademarks and Social Media* Danny Friedmann, 2015-09-25 Legal conflicts between trademark holders social media providers and internet users have become manifest in light of wide scale unauthorised use of the trademark logo on social media in recent decades Arguing for the protection of the trademark logo against unauthorised use in a commercial environment this book explores why protection enforcement should be made automatic A number of issues are discussed including the scalability of litigation on a case by case basis and whether safe harbour provisions for online service providers should be substituted for strict liability **Corporate Accountability** Karin Lukas, Barbara Linder, Astrid Kutrzeba, Claudia Sprenger, 2016-11-25

Whilst many of us would agree that human rights are more important than corporate profits the reality is often different such realities as child labour and environmental destruction caused by corporate activities make this patently clear Recognising that balancing human rights and business interests can be problematic Corporate Accountability considers the limits of existing complaint mechanisms and examines non judicial alternatives for conflict resolution
