PRACTICAL MONEY ADVICE FOR YOUNG MEN 2.0 Malik McCotter-Jordan, 2021-12-25 I am not suggesting that you fire your boss i.e. quit your job. In fact I advise you to keep your job. In this book I have a job that's called having more than one stream of income and I talk about that in this book. This is definitely not a BS Tony Robbins personal finance book with over 680 pages about compound interest him shamelessly promoting financial firms that he has an ownership stake in and saving 10% to 20% of your income. This is a raw and real book written by a guy who is only a few steps ahead of you. That's it. I am not a guru. This is not a scam. I put my heart and soul into making this. I wrote this book as if it was for the 18 year old me. Anyone who leaves a review saying that this book lacks realistic actionable advice is just plain wrong. I even did what most of these personal finance authors don't have the guts to do. I talk about my personal life and the mistakes I made that cost me thousands of dollars. That's why this genre is called personal finance right. I get really personal. Some might say it's too personal. If you're a young man who is tired of being broke living paycheck to paycheck not owning any assets being clueless about taxes and not being able to get ahead in the United States then this is the book for you. I started off as a poor black boy in a small town in Alabama on section 8. I currently have a 6 figure net worth. If I can do it you can too. Buy this book today.

The Financially Fluent Teen Claire Donnelly, 2025-12-22 Does the thought of your teenager navigating college loans credit cards and the rising cost of living make you uneasy. You know the high school years are a critical window but where do you even begin teaching real money skills. The Financially Fluent Teen is your clear reassuring step by step guide to raising financially confident teens in a complex digital world. This is not a textbook and not a lecture it's a practical playbook designed specifically for parents of teens aged 13-19. You don't need to be a financial expert. You just need the right framework. This book shows you how to move beyond allowance and vague advice and instead teach your teen how money actually works earning it managing it saving it growing it and protecting it. Start money conversations naturally without awkwardness or resistance. Teach budgeting frameworks teens can actually follow. Build strong saving habits using the Pay Yourself First principle. Explain compound interest and investing in simple age appropriate ways. Help teens understand credit debt and financial responsibility. Protect them from scams and digital financial risks. Prepare them for independence and early adulthood. Each chapter includes practical examples conversation scripts and real world scenarios you can apply immediately. No theory overload no judgment no fear tactics. The goal isn't perfection. The goal is confidence capability and long term financial resilience. The window to build these habits is open right now. This book helps you make the most of it.
