favorites from the first edition are back E mail protocols like SMTP POP and IMAP get full treatment as does XML RPC You can still learn how to code Python network programs using the Telnet and FTP protocols but you are likely to appreciate the power of more modern alternatives like the paramiko SSH2 library If you are a Python programmer who needs to learn the network this is the book that you want by your side **Photovoltaic Pumping Systems for Domestic Sustainable Water**

Access in Off-Grid Areas Judith Alazraque Cherni,Simon Meunier,Loïc Quéval,2024-03-23 This book offers practical guidance for practitioner engineers policymakers and other decision makers on how to implement solar photovoltaic water pumping systems to provide domestic clean water in off grid regions of developing countries By championing genuine multidisciplinary research and generating interdisciplinary results this book develops models and approaches which indicate how it might be possible to overcome some of the limitations that technocratic approaches to renewable energy and water access pose to truly sustainable development The book addresses technical challenges often found when promoting photovoltaic water pumping systems It offers practical guidance to stakeholders on how to successfully select install and maintain photovoltaic water pumps to promote sustainable options for the poorest underserved areas populations A main novelty of this book is that by using theoretical as well as real actual field work data and advanced modelling it successfully connects energy systems engineering environmental and geographical information and hydrology with population surveys which reveal local needs and conditions The book is timely and important More than 665 700 million worldwide still do not have access to improved drinking water sources eight out of ten live in rural areas typically located either in off grid territory or where connection to nearby grid is too expensive or unfeasible Unsafe water is responsible for 1 2 million deaths each year mainly correlated with the diarrheal diseases generated from drinking water from unimproved water sources
