Fashion Trends and Forecasting Eunsuk Hur, Caroline Hemingray, Stephen Westland, 2025-03-17 Fashion Trends and Forecasting explores how designers merchandisers buyers marketers and strategists use fashion trend forecasting to predict upcoming trends and understand past or current ones. It explains the importance of trend forecasting for businesses and how technology such as artificial intelligence can help to advance it for the future. Addressing both macro and micro trends including fashion styles, textiles and colour trends as well as the impact of technology such as AI and the metaverse, the book offers guidance on how fashion students can address fast changing consumer needs and demands and identify wider shifts in the cultural, environmental, political and technological worlds. Case studies from globally recognised organisations feature in every chapter, highlighting and contextualising theory for students. Discussion questions, further reading and exercises help facilitate class discussion and deeper understanding. Designed to equip the reader with Fashion Forecasting tools, methods and principles in an accessible and clear way, this text is recommended and core reading for students studying fashion forecasting, fashion buying and fashion marketing. Supplementary online resources can be found at www.routledge.com/9781032541860 and include a short instructor's manual of points to be used for seminar discussions and chapter by chapter PowerPoint slides for instructors.

Recent Trends in Intelligence Enabled Research Siddhartha Bhattacharyya, Gautam Das, Sourav De, Leo Mrsic, 2024-05-15 This book gathers extended versions of papers presented at DoSIER 2023 Fifth Doctoral Symposium on Intelligence Enabled Research held at Cooch Behar Government Engineering College, West Bengal, India, during December 20-21, 2023. The papers address the rapidly expanding research area of computational intelligence which is no longer limited to specific computational fields but has since made inroads in signal processing, smart manufacturing, predictive control, robot navigation, smart cities, and sensor design, to name but a few. Presenting chapters written by experts active in these areas, the book offers a valuable reference guide for researchers and industrial practitioners alike and inspires future studies.

Contemporary Issues in Digital Communication, Media, and Culture Karpouzis, Kostas, Skarvelos, Ioannis, 2025-09-24 In an age where technology shapes human interaction, contemporary issues in digital communication, media, and culture become complex. From the rise of social media algorithms influencing public opinion to concerns about data privacy, misinformation, and digital surveillance, today's digital landscape presents both new opportunities and critical challenges. These issues affect how individuals connect, how cultures evolve, and how societies function globally. Understanding and analyzing these dynamics may help navigate the ethical, social, and political implications of life in a digital world. Contemporary Issues in Digital Communication, Media, and Culture explores the intersection of computer science and social sciences, examining how computational methods analyze, interpret, and shape the disciplines of communication, media, and culture. It examines the theoretical foundations, methodologies, and applications of computational techniques in understanding and influencing human communication and cultural phenomena.
