[Startup Finance 2.0](#) Sam Ghosh, 2025-08-29 Traditional corporate financial theories and tools are based on matured companies with the assumption that the companies are going concerns Going Concern refers to the assumption that a company will continue to operate indefinitely with no intention or necessity of liquidation or cessation of operations in the foreseeable future The problem is that the Going Concern assumption does not hold for startups due to the inherent uncertainty associated with startups Traditional financial education and resources usually meant for analysts and accountants aren't ideal for entrepreneurs They focus on analyzing past data from established businesses not on making forward looking decisions in the uncertain and highly dynamic environment of startups Entrepreneurs also often struggle to prioritize the allocation of resources between seemingly urgent matters and matters that are important for the long term value of the startup Thus this book takes a value oriented approach to startup finance The book is designed to build the financial intuition that an entrepreneur needs to prioritize matters vital for the long term value of the company raise capital and allocate capital for value maximization It also looks at finance from a value creation point of view and covers specific methods especially suited for startups from investment assessment to valuation to fundraising to managing day to day finances

Digital Trademarks and Brands Rajeev Sachdev, 2025-10-28 Trademark disputes are a consistent feature of the digital legal landscape appearing in connection with a range of successive technologies and platforms This book presents a new adapted model for digital trademarks and trade practices providing recommendations for the Uniform Domain Name Dispute Resolution Policy UDRP and extending a like process to platform trademark policies and complaint procedures including e commerce marketplace search advertising social media mobile applications and Metaverse platforms The proposed model addresses and greatly reduces legal uncertainties and the harm caused by problems for digital trademarks in such key areas as the following use and place of use of marks bad faith and abuse confusion unfair acts trade practices or competition terms policies and disclaimers jurisdiction territory and justification The adapted model is informed by pertinent

theories and concepts select aspects of EU and US and other legal frameworks and existing policies. Ultimately a uniform policy is recommended for each of the five platform types in line with an adapted version of the UDRP based on recommendations through the model. It is applied in a way that provides a comprehensive workable solution fostering legal certainty. Actual text for the proposed adapted UDRP as well as the uniform policies recommended for each type of platform is provided with guidance for implementation. The book provides recommendations that can greatly enhance the resolution of trademark disputes of various kinds and on various platforms in a more certain, cost effective and timely manner. Given that the complex global environment of digital trademarks raises new issues not adequately addressed by legal frameworks this book will be of inestimable value to digital platforms, e-commerce, search, advertising, social media, mobile app, Metaverse, etc. website operators, platform and website lawyers, various stakeholders in the UDRP, arbitrators, panellists, online dispute resolution providers, libraries, academics and researchers. It will also be useful to digital businesses, domain name holders, sellers, listers, advertisers, content providers, digital consumers, trademark holders, digital trademark users and others.

Marketing in the Metaverse Abu Bashar, Brighton Nyagadza, Mohammad Wasiq, 2026-01-01. This book offers a comprehensive exploration of marketing in the metaverse, a rapidly evolving digital frontier reshaping human interaction and economic systems. It provides an evidence-based analysis of how immersive virtual spaces are transforming brand consumer engagement with a special focus on emerging markets. Readers will discover how technologies like virtual reality, artificial intelligence and blockchain are creating new paradigms for marketing strategies. The chapters delve into critical topics such as omnichannel convergence, value co-creation and trust in virtual transactions, illustrated through sectoral case studies from banking to fashion. The book also addresses ethical considerations such as privacy and digital well-being, advocating for a socially responsible approach to metaverse marketing. This volume is essential for marketers, business leaders and policymakers seeking to understand and leverage the metaverse's potential. It offers actionable insights for market entry and customer engagement while also serving as a valuable resource for students and educators interested in digital transformation. By bridging theoretical exploration with empirical insights, this book equips readers to navigate the future of marketing with confidence and responsibility.
