## How To Roblox Racing For Kids:

Kids Across the Spectrums Meryl Alper,2023-08-15 An ethnographic study of diverse children on the autism spectrum and the role of media and technology in their everyday lives In spite of widespread assumptions that young people on the autism spectrum have a natural attraction to technology a premise that leads to significant speculation about how media helps or harms them relatively little research actually exists about their everyday tech use In Kids Across the Spectrums Meryl Alper fills this gap with the first book length ethnography of the digital lives of autistic young people Based on research with more than sixty neurodivergent children from an array of racial ethnic and socioeconomic backgrounds Kids Across the Spectrums delves into three overlapping areas of their media usage cultural belonging social relationships and physical embodiment Alper s work demonstrates that what autistic youth do with technology is not radically different from their non autistic peers However significant social and health inequalities including limited recreational programs unsafe neighborhoods and challenges obtaining appropriate therapeutic services spill over into their media habits With an emphasis on what autistic children bring to media as opposed to what they supposedly lack socially Alper argues that their relationships do not exist outside of how communication technologies affect sociality nor beyond the boundaries of stigmatization and society writ large Finally she offers practical suggestions for the education healthcare and technology sectors to promote equity inclusion access and justice for autistic kids at home at school and in their communities

Curtis, 2024-01-04 New Directions in Childhood Studies Innocence Trauma and Agency in the Twenty first Century acknowledges that the conceptual frameworks for understanding the experience of childhood in the twentieth century are no longer adequate and offers important updates to the construct of American childhood The chapters in this collection examine contemporary children's literature film and video games to explore the ways in which everyday realities like trauma disaster and death impact the experience of childhood in America today In many ways the essays show the narratives blur traditional lines between children's and adult content taking children series as subjects while also guiding them through the processes of dealing with the particular challenges Collectively the essays develop a more contemporary construct of the American child and offer new insights into what that construction might mean for contemporary American society and culture
