Productivity Planner Morning Routine Prices

S Ben Porath

Productivity Planner Morning Routine Prices:

Build Business Equity While You Sleep: Sell Value, Not Your Personal Time Simon Schroth, 2025-04-23 True business success comes when you build something that generates income even when you're not working. Build Business Equity While You Sleep teaches you how to create a business that builds value and generates passive income so you can focus on growing wealth rather than constantly trading time for money. This book shows you how to transition from a time-for-money business model to one that leverages assets, intellectual property, and recurring revenue. You'll learn how to create scalable offers, build a strong brand, and develop systems that keep the business running smoothly even when you're not actively involved. The book also explores how to sell your business in the future to reap the rewards of the equity you've built. If you want to create a business that generates long-term value and works for you while you sleep, Build Business Equity While You Sleep provides the strategies to build wealth and exit successfully.

The High Price of Manhood Michael Jay Anthony, 2016-02-23 This is a book about men, about what we believe, what we feel, and what we think about our behavior and our conduct. About our roles and expectations. Most importantly, about our health and our relationship to the world around us. About how it feels to invest so much into work to be a devoted yet often absent husband and father, to be a trustworthy friend but maybe not a confiding one. Author Michael Anthony offers many processes and suggestions to help men learn more about how they fit in today's world and how they can help themselves cope with the world's expectations of them and their own expectations of themselves. Michael Anthony dedicated his life to helping people live better lives.

Establishing a Performance Index for Construction Project Managers Virendra Kumar Paul, Sushil Kumar Solanki, Abhijit Rastogi, Parnika Singh Yadav, 2023-03-07 Assessment of professional competence for project managers and the measure of project success is well-trodden ground in the research and professional project management literature. Whilst standards and certifications like PMBOK and the IPMA competence baseline have been developed as a guide for the development of project managers' competence, the manifestation of these competencies into good performance is neither guaranteed nor always easily ascertainable. This book presents a brand-new comprehensive and reliable quantitative tool to assess the performance of a construction project manager. Though the performance of a project construction manager may be judged on time and cost criteria of a project, there is still no one conclusive evaluation tool based on the varied criteria or competencies that are usually ascribed to them. This book develops a performance index for construction project professionals which can be indicative of their performance measured over varied attributes over the lifetime of their professional development. This index has the potential to provide all project stakeholders with better control over selecting appropriate resources for managing projects and drive the project professional from within towards improving his/her credentials with every project. This book can be used by aspiring and practising project managers for measuring their own performance and assessing their relative strengths and weaknesses. Organizations can use the tool as a benchmark to select the best of their human resources for

their projects and training institutions can use the tool to set a baseline highlight areas for intervention and indicate the readiness of trainees to face real world projects

Values Information from AI The Values We Share Project, Values information from AI is a collection of information and images of values generated from an AI tool as part of The Values We Share Project to promote values All information in this book can be used to promote values and can be used as material in values formation programs All information in this book will also be used in The Values We Share Project videos materials and courses in the future Visit The Values We Share Project at <http://thevaluesweshare.info>

Be More Productive?Slow Down Bud Roth,2011-09 The daily pressures of our overcommitted lifestyles can throw us out of control as we deal with the stressful conditions of fear rapid change and home pressures In Be More Productive Slow Down author Bud Roth suggests methods of re ection as well as useful models and exercises demonstrating how you can regain control of your life and reduce stress by slowing down Be More Productive Slow Down provides a guide to help you focus on what s important and shows you how to be more productive at work and at home It presents a process for making good choices that lead you to living successfully by showing you how to see the dangers of how you currently live and work re ect on who you are and the reality of the environment in which you live and work create a plan for the next cycle of life not the rest of your life understand what you can and can t control ask yourself and others uncomfortable questions that produce desirable actions With powerful yet manageable lessons Roth shows how you can design your life in the ways you choose to command your sailboat to your intended destinations
