**Music Festivals and the Politics of Participation** Roxy Robinson, 2016-04-29 The spread of UK music festivals has exploded since 2000. In this major contribution to cultural studies, the lid is lifted on the contemporary festival scene. Gone are the days of a handful of formulaic large events dominating the marketplace. Across the country, hundreds of boutique gatherings have popped up, drawing hundreds of thousands of festival goers into the fields. Why has this happened? What has led to this change? In her richly detailed study, industry insider Dr. Roxy Robinson uncovers the dynamics that have led to the formation and evolution of the modern festival scene. Tracing the history of the culture as far back as the fifties, this book examines the tensions between authenticity and commerce as festivals grew into a widespread professionalized industry. Setting the scene as a fragmented yet highly competitive market, *Music Festivals and the Politics of Participation* examines the emergence of key trends with a focus on surrealist production and popular theatricality. For the first time, the transatlantic relationship between British promoters and the social experiment of festival Burning Man is documented, uncovering its role in promoting a politics of participation that has dramatically altered the festival experience. Taking an in-depth approach to examining key events, including the fastest growing independent music festival in recent years, Hampshire's BoomTown Fair, the UK market is shown to have produced a scene that champions co-production and the democratization of festival space. This is a vital text for anyone interested in British culture.

**Musical Spaces** James Williams,Samuel Horlor,2021-11-29 There is growing recognition and

understanding of music's fundamentally spatial natures with significances of space found both in the immediacy of musical practices and in connection to broader identities and ideas around music. Whereas previous publications have looked at connections between music and space through singular lenses such as how they are linked to ethnic identities or how musical images of a city are constructed, this book sets out to explore intersections between multiple scales and kinds of musical spaces. It complements the investigation of broader power structures and place-based identities by a detailed focus on the moments of music making and musical environments revealing the mutual shaping of these levels. The book overcomes a Eurocentric focus on a typically narrow range of musics, especially European and North American classical and popular forms, with case studies on a diverse set of genres and global contexts inspiring a range of ethnographic text-based historical and practice-based approaches.

Music Festivals in the UK Chris Anderton, 2018-07-17

The outdoor music festival market has developed and commercialised significantly since the mid 1990s and is now a mainstream part of the British summertime leisure experience. The overall number of outdoor music festivals staged in the UK doubled between 2005 and 2011 to reach a peak of over 500 events. UK Music 2016 estimates that the sector attracts over 3.7 million attendances each year and that music tourism as a whole sustains nearly 40,000 full-time jobs.

*Music Festivals in the UK* is the first extended investigation into this commercialised rock and pop festival sector and examines events of all sizes from mega events such as Glastonbury Festival, V Festival and the Reading and Leeds Festivals to boutique events with maximum attendances as small as 250. In the past, research into festivals has typically focused either on their carnivalesque heritage or on developing managerial tools for the field of Events Management. Anderton moves beyond such perspectives to propose new ways of understanding and theorising the cultural, social and geographic importance of outdoor music festivals. He argues that changes in the sector since the mid 1990s, such as professionalisation, corporatisation, mediatisation, regulatory control and sponsorship branding, should not necessarily be regarded as a process of transgressive alternative culture being co-opted by commercial concerns; instead, such changes represent a reconfiguration of the sector in line with changes in society and a broadening of the forms and meanings that may be associated with outdoor music events.
