Matthews,2025-11-08 Every night the universe rehearses creation inside you Your body dissolves into darkness your mind releases its grip on the day and something larger begins to work through you quietly repairing reordering and remembering what you truly are Healing in Sleep reveals that sleep is not idleness but participation in the deeper intelligence of life itself Drawing from neuroscience ancient medicine and contemplative philosophy Laing Z Matthews restores the sacred dimension of the night showing that the same forces that mend cells and balance hormones also reconcile memories transmute emotion and awaken the soul Blending modern research with timeless wisdom this luminous work guides the reader through five movements from the biology of rest to the mysticism of lucid awareness The book journeys through Greek dream temples Egyptian sanctuaries Daoist mountain hermitages and Tibetan dream yoga traditions uncovering a universal understanding once shared by healers across civilizations that sleep is the altar where body
