Act Rostam J. Neuwirth, 2022-08-15 AI in combination with other innovative technologies promises to bring unprecedented opportunities to all aspects of life These technologies however hold great dangers especially for the manipulation of the human mind which have given rise to serious ethical concerns Apart from some sectoral regulatory efforts to address these concerns no regulatory framework for AI has yet been adopted though in 2021 the European Commission of the EU published a draft Act on Artificial Intelligence and UNESCO followed suit with a Recommendation on the Ethics of Artificial Intelligence The book contextualises the future regulation of AI specifically addressing the regulatory challenges relating to the planned prohibition of the use of AI systems that deploy subliminal techniques The convergence of AI with various related technologies such as brain computer interfaces functional magnetic resonance imaging robotics and big data already allows for mind reading or dream hacking through brain spyware as well as other practices that intrude on cognition and the right to freedom of thought Future innovations will enhance the possibilities for manipulating thoughts and behaviour and they threaten to cause serious harm to individuals as well as to society as a whole The issue of subliminal perception and the ability to deceive and manipulate the mind below the threshold of awareness causes severe difficulties for law and democracy and raises important questions for the future of society This book shows how cognitive technological and legal questions are intrinsically interwoven and aims to stimulate an urgently needed transdisciplinary and transnational debate between

students academics practitioners policymakers and citizens interested not only in the law but also in disciplines including computer science neuroscience sociology political science marketing and psychology Surfacing best practices for AI software development and integration in healthcare Mark Sendak,Suresh Balu,Xiao Liu,Karandeep Singh,Sylvia Trujillo,David Vidal,2023-06-08 Security and the Networked Society Mark A. Gregory,David Glance,2014-07-08 This book examines technological and social events during 2011 and 2012 a period that saw the rise of the hacktivist the move to mobile platforms and the ubiquity of social networks It covers key technological issues such as hacking cyber crime cyber security and cyber warfare the internet smart phones electronic security and information privacy This book traces the rise into prominence of these issues while also exploring the resulting cultural reaction The authors analysis forms the basis of a discussion on future technological directions and their potential impact on society The book includes forewords by Professor Margaret Gardner AO Vice Chancellor and President of RMIT University and by Professor Robyn Owens Deputy Vice Chancellor Research at the University of Western Australia Security and the Networked Society provides a reference for professionals and industry analysts studying digital technologies Advanced level students in computer science and electrical engineering will also find this book useful as a thought provoking resource Parenting Hotkeys Dr Hena Yasmin,2025-12-05 Nowadays parenting is not a straightforward path its a journey full of surprises abundant joy and sometimes the occasional meltdown especially with TikTok tantrums Wi Fi battles and kids trusting Google and ChatGPT more than their parents I felt that raising children was like navigating a whole new world Think of this book as a chat with a friend your own parent part guidance part humour and a lot of patience all designed to help you connect with your child whilst staying sane Through real stories practical advice a touch of humour and easy to follow tips this book gently guides you in setting healthy boundaries surviving ups and downs and raising resilient and emotionally grounded children Parenting doesn t have to be overwhelming it can be an opportunity to reconnect with your child and rediscover joy along the way Get ready to dive in Technosleep Catherine Coveney,Michael Greaney,Eric L. Hsu,Robert Meadows,Simon J. Williams,2023-06-25 This book draws on a variety of substantive examples from science technology medicine literature and popular culture to highlight how a new technoscientifically mediated and modified phase and form of technosleep is now in the making in the global north at least and to discuss the consequences for our relationships to sleep the values we accord sleep and the very nature and normativities of sleep itself The authors discuss how technosleep at its simplest denotes the coming together or entanglements of sleep and technology and sensitizes us to various shifts in sleep technology relations through culture time and place In doing so it pays close attention to the salience and significance of these trends and transformations to date in everyday night life their implications for sleep inequalities and the related issues of sleep and social justice they suggest The Brain Makers Harvey P.
