[Asian Histories and Heritages in](#)

Video Games Yowei Kang, Kenneth C. C. Yang, Michał Mochocki, Jakub Majewski, Paweł Schreiber, 2024-08-28 This book explores the representations of national Asian histories in digital games. Situated at the intersection of regional game studies and historical game studies this book offers chapters on histories and heritages of Japan, China, Iran, Iraq, Taiwan, South Korea, Indonesia, Singapore, Turkey, and Russia. The volume looks beyond the diversity of the local histories depicted in games and the audience reception of these histories to show a diversity of approaches which can be used in examining historical games from postcolonialism to identity politics to heritage studies. It demonstrates various methodological approaches to historical regional game studies case studies of nationally produced historical games that deal with local history studies of media reception of history heritage themed games text mining methods studying attitudes expressed by players of such games and educational perspectives on games in teaching cultural heritage. Through the lens of videogames the authors explore how nations struggle with the legacies of war, colonialism and religious strife that have been a part of nation building but also how victimized cultures can survive, resist and sometimes prevail. Appealing primarily to scholars in the fields of game studies, heritage studies, postcolonial criticism and media studies this book will be particularly useful for the subfields of historical game studies and postcolonial game studies.
