Communication Tools for Working with Traumatized Children and Teens Richard Rose, 2025-02-21 This expert guide provides 50 essential tools and activities to use in practice with children and young people who have experienced trauma. From bubbles, balloons and blocks to ghosts, monsters and squiggles, this book offers a wealth of activities that help children to express their feelings and experiences while feeling safe and supported. Case studies demonstrate how each activity can be easily incorporated into daily interactions during social work practice and clear explanations of the theory provide context for how they work. Developed from decades of hands-on experience supporting children after trauma, this book demonstrates ways to sensitively discuss children's histories. This can lead into discussing the way their experiences influence their behaviour and help them to form healthy attachments for the future.

Emerging Technologies, Novel Crimes, and Security Hedi Nasheri, 2024-12-30 This book provides a holistic overview of the complexities of modern technological advances and their implications for crime and security. It examines the societal dilemmas that accompany these technologies, their strategic impact on geopolitics, governments, business and civil society. The increasingly interconnected world gives rise to novel crimes and creates a new complex set of threats. Understanding this landscape is essential to strategizing for the prevention, protection, mitigation and risk assessment of technology-related crime. Practical and approachable, this book builds knowledge and awareness of the impact of emerging technologies on crime and security among professionals, students, academicians, researchers and policymakers.
