

Features of Non-chronological Reports

Sub-headings

Each main paragraph has a sub-heading. These tell the reader what each paragraph is about.

Paragraphs

Non-chronological reports are organised into paragraphs. Each paragraph focuses on a different aspect of the subject being discussed. Many non-chronological reports have an introductory paragraph that introduces the subject and gives some basic facts about the topic.

Technical vocabulary

Sometimes, more specialised vocabulary is used in reports – words and phrases that are specific to the subject that is being written about.

Formal language

Another feature of non-chronological reports is factual, formal language. The purpose of this type of report is to give facts, not opinions.

Heading

A non-chronological report needs a large, eye-catching heading so that the reader knows what the report is about.

What is a Sloth?

A sloth is a mammal found in the rainforests of Central and South America. There are two types of sloth – two-toed sloths and three-toed sloths.

Appearance

Sloths have long, dark brown fur, which makes them very well camouflaged. They have long, thick claws for climbing trees and hanging from branches. Their fur often has a green, blue or brown tint to it, which gives it a 'mossy' appearance. Sloths are small animals, such as sloths, colobus and lemurs.

Habitat

Sloths are unusual animals. They have very poor eyesight and live in trees. They eat, sleep and even go to the toilet in their tree branches. Sloths only come down from their tree to go to the toilet.

Diet

Sloths mainly eat leaves. They have sharp claws, which they use to tear leaves from branches and stems. They have an extremely slow digestive process, which helps sloths to store large amounts of food in their bodies.

Movement

Sloths move extremely slowly. They crawl through the trees at an average speed of just four metres per minute, and can even stand on the ground. They are extremely good climbers, and can move up to three metres every 10 minutes.

Did you know...?

- Sloths have very poor eyesight.
- Sloths have very poor hearing.
- Sloths have very poor sense of smell.
- Sloths are very good climbers.

Images

Non-chronological reports can include images such as photographs, illustrations or labelled diagrams to show pictures of the subject.

Captions

A caption is a short sentence or phrase which describes or explains the image it is written underneath.

Fact box & bullet points

Lots of non-chronological reports have boxes with interesting facts, which are organised into a bullet-pointed list. This makes it quick and easy for the reader to read.

Present tense

Non-chronological reports are usually written in the present tense (unless they are about something that has happened in the past).
