### What is Trade?

This image is teaching us about trade.

Have you ever exchanged a sandwich with a friend or bartered a toy? "Trade" is the name we give to any exchange of one thing for something else. Trading can take place between people, companies, and countries.

Trade involves services, money, and goods. Maybe you mowed your neighbor's lawn, and she paid you. That was trading a service for money. Or maybe you traded your computer for a friend's video game. That was trading goods.

People and countries may trade because they have too much of one thing and need something else. For example, in some countries, there is a lot of rice. They produce more than they need for their own use. They sell their rice to other countries. The buyers of the rice use the money to buy goods or services.

Trade allows people to sell, buy, or exchange goods and services to get what they need.

Trade: the exchange of one thing for something else. This is a definition.

Goods: items that you can sell or trade.
