There were five. They came together for reasons that no one is even sure of anymore and cut a swath through the universe. Everyone knew their name and they lined up to follow them. They knew their symbol the snarling wolf. The warlords formed a following an almost religion. And then it was over. Years later and the followings of each of the original warriors have become clans. The clans have grown and trained new warriors over time creating the driving force in all the universe. Here are four people now training to follow in the ways of one particular wolf. The wolf that ended it all in the first place the Blackwolf. This is the start of their journey the beginning of their training. Gregor Holden a Prince who's sense of duty is equaled only by his lust for adventure. Candace Orthon a legacy who's father is a Blackwolf who's grandfather was a Blackwolf and who will be a Blackwolf if it kills her. Ran Grastle already an accomplished warrior in his own right. He's on the run for a committing a crime to exact justice and cares very little for the clan or anyone else. Xesca a child of the last planet that the Blackwolf attacked. She has come to learn his ways his style so that no one can ever attack her planet again. These four. If no one else let these four progress.
