Not-So-Nuclear Families Karen V. Hansen, 2004-11-24 In recent years U S public policy has focused on strengthening the nuclear family as a primary strategy for improving the lives of America s youth It is often assumed that this normative type of family is an independent self sufficient unit adequate for raising children But half of all households in the United States with young children have two employed parents How do working parents provide care and mobilize the help that they need In *Not So Nuclear Families Class Gender and Networks of Care* Karen V Hansen investigates the lives of working parents and the informal networks they construct to help care for their children She chronicles the conflicts hardships and triumphs of four families of various social classes Each must navigate the ideology that mandates that parents mothers in particular rear their own children in the face of an economic reality that requires that parents rely on the help of others In vivid family stories parents detail how they and their networks of friends paid caregivers and extended kin collectively close the care gap for their school aged children Hansen not only debunks the myth that families in the United States are independent isolated and self reliant units she breaks new theoretical ground by asserting that informal networks of care can potentially provide unique and valuable bonds that nuclear families cannot

Holding It Together Jessica Calarco, 2024-06-04 Other countries have social safety nets The U S has women Holding It Together chronicles the causes and dire consequences America runs on women women who are tasked with holding society together at the seams and fixing it when things fall apart In this tour de force acclaimed Sociologist Jessica Calarco lays bare the devastating consequences of our status quo Holding It Together draws on five years of research in which Calarco surveyed over 4000 parents and conducted more than 400 hours of interviews with women who bear the brunt of our broken system A widowed single mother struggles to patch together meager public benefits while working three jobs an aunt is pushed into caring for her niece and nephew at age fifteen once their family is shattered by the opioid epidemic a daughter becomes the backstop caregiver for her mother her husband and her child because of the perceived flexibility of her job a well to do couple grapples with the moral dilemma of leaning on overworked underpaid childcare providers to achieve their egalitarian ideals Stories of grief and guilt abound Yet they are more than individual tragedies Tracing present day policies back to their roots Calarco reveals a systematic agreement to dismantle our country s social safety net and persuade citizens to accept precarity while women bear the brunt She leads us to see women s labor as the reason we ve gone so long without the support systems that our peer nations take for granted and how women s work maintains the illusion that we don t need a net Weaving eye opening original research with revelatory sociological narrative Holding It Together is a bold call to demand the institutional change that each of us deserves and a warning about the perils of living without it **IBSS:**
