Matthews, James C. Moyer, 1994-09-01 Explore the literature history and social context of the Old Testament Hebrew Bible and their relevance for making sense of this ancient collection This volume pays particular attention to the original Mediterranean context how it differs from modern Western culture and its importance for interpretation The significance of critical scholarly methods as well as the value of archaeology are likewise explored Designed with the realities of the classroom in mind it includes helpful illustrations insets and maps study questions a glossary and indexes of subjects personal and place names and Scripture citations **Text in Context** A. D. H. Mayes, 2000-09-07 The scholarly study of the Old Testament is now marked by a rich diversity of approaches and concerns In the last two decades an interest in the text and the implications for its interpretation is no longer the preserve of a single scholarly community while the reconstruction of the history of the people from whom it derived has been transformed by new methods This new book published under the auspices of the Society for Old Testament Study reflects these new approaches and developments and has a particular concentration on literary and historical study Thus it not only clearly recognizes the diversity now inherent in Old Testament study but also welcomes the integration into its field of the wide range of approaches available in current literary and historical investigation The study of the biblical text and how it is received and interpreted by its various readerships has a certain logical priority over the study of its historical background and authorship Yet an ongoing investigation of issues relating to the latter cannot await definitive conclusions on the former So essays on the text and its reception discuss primary issues which arise in Old Testament study while those on background and authorship reflect the continued vitality of and the fresh perspective possible in more traditional scholarly concerns **Old Testament Quotations in Hebrews** Georg Walser, 2013 This thesis aims at investigating the use of the Old Testament in the New and in Hebrews specifically focusing on two aspects which appear to have been somewhat neglected in previous scholarship namely

the text and context of specific quotations The aspect of text takes the complicated textual history of the Old Testament into account especially concentrating on the findings of recent Septuagint research and particularly the possibility that different Hebrew texts may underlie the Greek translation The aspect of context draws on the assumption that Hebrews was composed in a Jewish context where the Old Testament text had been interpreted for a long time It is also presupposed that this exegesis was handed down along with the Hebrew Scriptures not only in the post Second Temple Jewish community but also in the early Church Hence primary sources such as Talmud Midrash and early Church Fathers are consulted with the intention of better understanding the interpretation of the Old Testament quotations in Hebrews To do this three Old Testament texts which exist in distinctly different versions and have been quoted in Hebrews have been examined namely Gen 47 31b in Heb 11 21 Ps 40 7b in Heb 10 5 and Jer 31 33 in Heb 8 10 and 10 16 The outcome of this study shows that several versions of Old Testament texts were interpreted at the time of the New Testament and that the peculiarities of the different versions had a decisive impact on the exegesis of the texts Further it shows that some versions of the texts were favoured in the Jewish context while others were preferred in the early Church Hence different understandings of Old Testament passages in different contexts are sometimes not the result of different interpretations of the same texts but of the exegesis of different versions of the same text

Biblical Theology of prayer in the Old Testament Albert J. Coetsee,Francois P. Viljoen,2023-08-31 Prayer is a major topic within Christian theology The biblical text has various references to various recorded and reported prayers In fact references to prayer are found within the rich diversity of the various books corpora and genres of Scripture As can be expected much has been written about prayer in the biblical text However a comprehensive Biblical Theology dealing with the concept of prayer in Scripture has not been published before and this book intends to fill this gap assuming that such an approach can provide a valuable contribution to the theological discourse on prayer and related concepts This book aims to investigate prayer and its related elements including worship praise thanksgiving adoration petition intercession lament and confession in the Old Testament on a book by book or corpus by corpus basis The investigation follows a Biblical Theological approach reading the Old Testament on a book by book basis in its final form to uncover the Old Testament s overarching theology of prayer understanding the parts in relation to the whole By doing this the discrete nuances of the prayers of the different Old Testament books and corpora can be uncovered letting the books and corpora speak for themselves In addition the advantage of this approach is that it provides findings that can benefit the modern Christian community and contribute to the practice of Reformed theology in Africa This book is of significant value to scholars It will inspire scholars to think about prayer and use the Bible as the major prayer handbook in their spiritual lives
