Don't Divorce Diane Medved,2017-03-06 If you're in a troubled marriage divorce might seem like a reasonable option. But in most cases it's a calamity. Shows like Bravo's *Girlfriends Guide to Divorce* and HBO's *Divorce* normalize the dissolution of marriage, making couples feel that divorce can be a happy new beginning. Celebrities suggest a norm that divorce is not only acceptable but advisable. Gwyneth Paltrow's conscious uncoupling makes divorce seem trendy and enlightened. Today couples are even throwing divorce parties complete with invitations and caterers. Enough says psychologist Diane Medved. If you're hurtling down the road to divorce, the first thing to do is to put on the brakes. Don't let your spouse, your friends, or the divorce industry rush you into ending your marriage. Take a deep breath and read this book. Drawing on three decades of clinical and personal experience, Dr. Medved will show why you should save and revitalize your marriage. She expertly unmasks the threats to marriage including hookup apps that promise non-committal sex and legions of professionals who are financially invested in your divorce. She punctures one by one the arguments in favor of divorce, proving that the good divorce is a myth. Don't Divorce is the antidote to a pro-divorce culture, the tool that will empower you to revive a dying marriage and recover the happiness that seems out of reach.

Please Don't Say You're Sorry Nicole Sodoma,2022-05-24 In *Please Don't Say You're Sorry*, marriage-loving divorce attorney Nicole Sodoma shows up with empowering advice to help you sustain a real and happy marriage. Recognize when that's just not possible and know what to expect and do from there. What's more, she does it with a generous dose of humor to remind you that you can and will laugh again. When marriage-loving divorce attorney Nicole Sodoma ended her thirteen-year marriage, she found herself seated in a symphony of sympathies and quickly began to question why people say congratulations when we marry and I'm sorry when we divorce. There's no denying that divorce sucks. You've invested years in a relationship. Then it what feels like the blink of an eye, everything has changed and you are faced with more resolution options than New Year's Eve. The journey can be wholly overwhelming, but it doesn't have to be the worst thing that's ever happened to you. Choice will be your ally. As the child of a blended family of divorced parents, a now-unmarried woman, and a veteran family law attorney, Nicole Sodoma knows divorce. In *Please Don't Say You're Sorry*, she serves up both humorous and decidedly unfunny realities of marriage and divorce alongside empowering insights for finding your way through either. From hard truths about the unintended consequences of ending a marriage to relatable tales from divorces past, Nicole's communication style will help you feel deeply understood as you try to render those seemingly impossible decisions. Whether you are looking for advice on how to better your marriage, are considering separation, or find yourself knee-deep in divorce, this book has something for you. Today is the first day of the rest of your life, and now you've got a badass, no-holds-barred divorce attorney by your side.

Parenting Through Divorce Haytham Al Fiqi, 2017-11-08

Getting a divorce means you will no longer be with the person you once thought you were going to spend the rest of your life with. However, if there are children from that marriage, then you will always be linked to each other. Many divorces are very bitter with hurt and angry feelings lasting for years. Yet, you need to do your very best to move past all of that for the sake of the children. Effective communication between the parents is necessary in order for them to both have an active role in what is taking place in the lives of their children. School is a big issue for parents to be concerned with. Both need to be attending school functions and talking with teachers about the progress of the students. It is important for the children to see the parents getting along with each other at least when it comes to their needs. A child should never have to hear one parent talking bad about the other one. It can lead to feelings of insecurity as well as resentment. Children should never have to choose between their love for one parent over the other either. Too many divorcing couples use their children as a way to communicate with their ex-spouse. They place the burden of sending messages back and forth on the children. This isn't acceptable and it isn't fair to the children. Instead, you need to work out being able to talk with your ex-spouse about issues that concern the children. If it is too difficult or tense for you to talk face to face, then do so over the phone. Make an agreement to stick only to the issues that are going on with the children. Try to be objective rather than always attempting to get your own way. Compromise is very important when you are divorced and dealing with issues that concern your children together. Some couples find that notes are easier for them than talking in person or over the phone. Again, though, you need to take your children out of the equation. Don't make them responsible for passing the notes back and forth. With written communication, a person can think before they respond and that can help prevent emotions from dictating the conversations you are attempting to have about your children. It won't always be easy to maintain good communication with your ex-spouse. In fact, that is one of the most common reasons why

people end up filing for a divorce in the first place. Yet you do want to make a sincere effort to try. The future of your children is too important for you not to attempt to make this work for you. Sometimes it can help if you attend a class with your ex-spouse. It can help you to understand the importance of good communication after the divorce. You can also learn effective techniques to use so you don't slip into your old behaviors. It can take some time to make this work but don't give up on it. Your children will certainly appreciate all of your efforts to be decent to their other parent. It is a very important lesson that you can teach them by example. Showing them that you still respect their other parent and include them in important decisions shows that you really care about their well-being.
