Handbook of the Language Industry Gary Massey, Maureen Ehrensberger-Dow, Erik Angelone, 2024-07-01 Digital transformation and demographic change are profoundly affecting the contexts in which the language industry operates the resources it deploys and the roles and skillsets of those it employs. Driven by evolving digital resources and socio ethical demands the roles and responsibilities deriving from the proliferation of new and emerging profiles in the language industry are transcending the traditional bounds of core activities and competences associated with prototypical concepts of translation and interpreting. This volume focuses on the realities in the language industry from the fresh perspective of current and emerging professional profiles and of the contexts and resources that condition and support them. It traces the industry's evolution, maps its current state and considers key aspects of its workplaces, actors and practices. In an age when artificial intelligence is challenging traditionally held views of human performance, it addresses the issue of where and how human agents add value to the industry's processes and products with a detailed research based consideration of the activities, competences, roles, responsibilities and tools that characterize the language industry of today and the near future.

Literary Tourism and the British Isles LuAnn McCracken Fletcher, 2018-12-10 *Literary Tourism and the British Isles: History, Imagination and the Politics of Place* explores literary tourism's role in shaping how locations in the British Isles have been seen, historicized, and valued. Within its chapters, contributors approach these topics from vantage points such as feminism, cultural studies, geographic and mobilities paradigms, rural studies, ecosystems, philosophy of history, dark tourism, and marketing analyses. They examine guidebooks and travelogues, oral history, pseudo history, and absent history, and literature that spans Renaissance drama to contemporary popular writers such as Dan Brown, Diana Gabaldon, and J.K. Rowling. Places discussed in the collection include the West Wordsworth Country and Bront Country, Stowe and Scotland, the Globe Theatre and its environs, Limehouse, Rosslyn Chapel, and the imaginary locations of the Harry Potter series. Taken as a whole, this collection illuminates some of the ways by which the British Isles have been created by literary and historical narratives and, in turn, will continue to be seen as places of cultural importance by visitors, guidebooks, and site sponsors alike.

Palestine and Rule of Power Alaa Tartir, Timothy Seidel, 2018-12-22 This book explores how the rule of power relates to the case of occupied Palestine, examining features of local dissent and international governance. The project considers expressions of the rule of power in two particular ways: settler colonialism and neoliberalism. As power is always accompanied by resistance, the authors engage with and explore forms of everyday resistance to the logics and regimes of neoliberal governance and settler colonialism. They investigate wide-ranging issues and dynamics related to international governance, liberal peacebuilding, statebuilding, and development, the claim to politics, and the notion and practice of resistance. This work will be of interest for academics focusing on modern Middle Eastern politics, international relations, as well as for courses on contemporary conflicts, peacebuilding, and development.
