*Not Exactly Lying* Andie Tucher,2022-03-29 Winner 2023 Columbia University Press Distinguished Book Award Winner 2023 Frank Luther Mott Kappa Tau Alpha Research Award Winner 2023 Journalism Studies Division Book Award International Communication Association Winner 2023 History Book Award Association for Education in Journalism and Mass Communication Long before the current preoccupation with fake news American newspapers routinely ran stories that were not quite strictly speaking true Today a firm boundary between fact and fakery is a hallmark of journalistic practice yet for many readers and publishers across more than three centuries this distinction has seemed slippery or even irrelevant From fibs about royal incest in America s first newspaper to social media driven conspiracy theories surrounding Barack Obama s

birthplace Andie Tucher explores how American audiences have argued over what's real and what's not and why that matters for democracy Early American journalism was characterized by a hodgepodge of straightforward reporting partisan broadsides humbug tall tales and embellishment Around the start of the twentieth century journalists who were determined to improve the reputation of their craft established professional norms and the goal of objectivity However Tucher argues the creation of outward forms of factuality unleashed new opportunities for falsehood News doesn't have to be true as long as it looks true Propaganda disinformation and advocacy whether in print on the radio on television or online could be crafted to resemble the real thing Dressed up in legitimate journalistic conventions this fake journalism became inextricably bound up with right wing politics to the point where it has become an essential driver of political polarization Shedding light on the long history of today's disputes over disinformation Not Exactly Lying is a timely consideration of what happens to public life when news is not exactly true
