Malaysian Christians Online Meng Yoe Tan, 2020-02-26 Many facets of social life are now intrinsically linked to the Internet through increasing dependence of user centric platforms like blogs social networking websites online forums and open source websites The Malaysian Church is not exempt from having to negotiate with an increasingly tech savvy and networked community of believers Based primarily on Internet ethnography and interviews with Christian bloggers and church pastors this book looks at how the Internet is a component of everyday religion in the lives of Malaysian Christians at individual institutional and national levels It examines the ways in which online Christian expressions are increasingly integrated into the everyday religious routines of Christians for the development of their personal identities and inter religious interactions This book also shows how the spiritual authority of church pastors can be both challenged and reinforced through the creative use of online tools It addresses some of the creative ways in which Christians utilise the Internet to engage with national socio political issues within the context of restrictive and controlled mainstream media as well as the ongoing discourse with Islam in the country Through a selection of case studies this book shows that while the Internet may be free the users of the Internet are not necessarily so While the Internet has provided Malaysian Christians with new tools to experience their faith in new ways several aspects of old offline socio cultural habits persist online These in turn lead to a robust and growing environment of Internet Christianity in Malaysia This timely book will be of interest to scholars in religious studies media and communications and cultural studies in Southeast Asia

The Road to Unfreedom Timothy Snyder, 2018-04-05 From the author of international bestseller *On Tyranny* this prescient analysis of Russia's ongoing interference in the West is now more relevant than ever One of the best brisk conceptually convincing account of democracy's retreat in the early years of 21st century Guardian The past is another country the old saying goes The same might be said of the future But which country For Europeans and Americans today the answer is Russia In this visionary work of contemporary history Timothy Snyder shows how Russia works within the West to destroy the West by supporting the far right in Europe invading Ukraine in 2014 and waging a cyberwar during the 2016 presidential campaign and the EU referendum Nowhere is this more obvious than in the creation of Donald Trump an American failure deployed as a Russian weapon But this threat presents an opportunity to better understand the pillars of our freedoms and face the choices that will determine the future equality or oligarchy individualism or totalitarianism truth or lies A brilliant and disturbing analysis which should be read by anyone wishing to understand the political crisis currently engulfing the world Yuval Noah Harari bestselling author of *Sapiens*
