Pretty Unhealthy Nikki Stamp, 2019-09-03 A heart surgeon and TV star investigates why our health is declining despite our obsession with fitspiration and the image of health. How have we messed up our relationship with food and exercise so badly? Despite an explosion in the number of gyms, health foods and activewear, we are more obese, less active, more stressed than ever before. We obsess over looking healthy, but our health is getting worse. Why did we start equating beauty with health? And is it possible to be fit and fat? Equipped with Instagram accounts and blogs, online wellness experts lead an army of followers towards what is labelled health, but might actually be far from it. We photograph ourselves and our food, but aren't sure whether we like the images until someone else likes them first. It seems all this health and wellness is making us unhappy, poor and pretty unhealthy instead. Heart surgeon and health commentator Dr Nikki Stamp unpicks the web of online pseudoscience and urges us to take back our health from the people who don't value it as much as we do. She explores the secret of long term motivation for healthy diet and exercise, and shares the scientific value of self-kindness for true physical and mental health.

dear elia Mimi Khúc, 2023-12-11 In *dear elia* Mimi Khúc revolutionizes how we understand mental health. Khúc traces the contemporary Asian American mental health crisis from the university into the maw of the COVID 19 pandemic, reenvisioning mental health through a pedagogy of unwellness. The recognition that we are all differentially unwell. In an intimate series of letters, she bears witness to Asian American unwellness up close and invites readers to recognize in it the shapes and sources of their own unwellness. Khúc draws linkages between student experience, the Asian immigrant family, the adjunctification of the university, and teaching methods pre and post COVID 19, to illuminate hidden roots of our collective unwellness, shared investments in compulsory wellness and meritocracy. She reveals the university as a central node and engine of unwellness and argues that we can no longer do Asian American studies without Asian American mental health and vice versa. Interspersed throughout the book are reflective activities including original tarot cards that enact the very pedagogy Khúc advances, offering readers alternative ways of being that divest from structures of unwellness and open new possibilities for collective care.
