Clinical Nursing Skills Christy Bowen, 2024-09-16 Clinical Nursing Skills is designed to equip nursing students with the practical knowledge and hands on skills necessary to provide comprehensive patient care. The material emphasizes the application of clinical judgment in a variety of settings ensuring that students are prepared to deliver high quality care across different patient populations and clinical scenarios. The content utilizes concepts promoting the development of clinical judgment by building upon the systematic model developed by the National Council of State Boards of Nursing (NCSBN). Clinical Nursing Skills provides detailed instructions on basic procedures such as hygiene, mobility, vital signs assessment, medication administration, and wound care.
