My Poetics Maureen N. McLane,2024-05-08 Acclaimed poet and critic Maureen N McLane offers an experimental work of criticism ranging across Romantic and contemporary poetry In My Poetics Maureen N McLane writes as a poet critic theorist and scholar but above all as an impassioned reader Written in an innovative conversable style McLane s essays illuminate her own poetics and suggest more generally all that poetics can encompass Ranging widely from romantic era odes and hymns to anonymous ballads to haikus and haibuns to modernist and contemporary poetries in English My Poetics explores poems as speculative instruments and as ways of registering our very sense of being alive McLane pursues a number of open questions How do poems generate modes for thinking How does rhyme help us measure out thought What is the relation of poetry to its surroundings and how do specific poems activate that relation If as Wallace Stevens wrote poetry is the scholar s art My Poetics flies under a slightly different banner study and criticism are also the

poet's art Punctuated with McLane's poems and drawings variously on Hannah Arendt, Percy Bysshe Shelley, Roland Barthes, Bruno Latour and other writers and poets My Poetics is a formally as well as intellectually adventurous work. Its artful arrangement of readings and divagations shows us a way to be with poems and poetics

idea journal: interior technicity: unplugged and/or switched on Julieanna Preston, 2020-10-07 Interior Technicity Unplugged and or Switched On invites reflection on how interiors have always been augmenting entities and how they continue to be so in other words extending, facilitating and consolidating bodies within socio cultural environments. Rather than seeing an interior as an inside in opposition to a world beyond it asks what modes of folding inward have equipped and enabled the spatial environment. Technicity the world of tools and technical objects that extend and mediate memory as Bernard Steigler 1998 describes it has never been what inside ness in its sheltering of life keeps at bay. mediation is from the start technical indexed to inscribing practices rich in temporal and embodied implications. By this reading interiors have always been augmented and augmenting in the sense of the Latinaugmentare to increase enlarge or enrich. This IDEA Journal issue considers this mode of folding inward as a condition of an interior's specificity. Whether it be a small structure such as a tramping hut or a tiny house a large complex interior environment such as an airport or shopping mall, handmade with local materials such as Samoan fale or the result of manufacturing processes assembling artificial and prefabricated elements as in the case of a spacecraft, boat or train interiors are augmented mediated generated or embellished by technologies. The effect of these technologies is not neutral one's experience of an interior is significantly influenced by the affective resonance of its technologies
