*Research Anthology on School Shootings, Peer Victimization, and Solutions for Building Safer Educational Institutions* Management Association, Information Resources, 2020-09-10 Though decades ago school shootings were rare events today they are becoming normalized Active shooter drills have become more commonplace as pressure is placed on schools and law enforcement to prevent the next attack Yet others argue the traumatizing effects of such exercises on the students Additionally violence between students continues to remain problematic as bullying pervades children's lives both at school and at home leading to negative mental health impacts and in extreme cases suicide. Establishing safer school policies promoting violence prevention programs building healthier classroom environments and providing better staff training are all vital for protecting students physically and mentally. The *Research Anthology on School Shootings Peer Victimization and Solutions for Building Safer Educational Institutions* examines the current sources of violence within educational systems and it offers solutions on how to provide a safer space for both students and educators alike. Broken into four sections the book examines the causes and impacts that peer victimization has on students and how this can lead to further violence and

investigates strategies for detecting the warning signs The book provides solutions that range from policies and programs that can be established to strategies for teaching nonviolence and promoting coexistence in the classroom Highlighting a range of topics such as violence prevention school climate and bullying this publication is an ideal reference source for school administrators law enforcement teachers government and state officials school boards academicians researchers and upper level students who are intent on stopping the persisting and unfortunate problem that is school violence [Handbook of Australian School Psychology](#) Monica Thielking, Mark D.
