*Bodies, Boundaries and Vulnerabilities* Lisa Folkmanson Käll,2015-10-30 This volume explores the interrelations between bodily boundaries and vulnerabilities It calls attention to the vulnerability of bodies as an essential aspect of having boundaries and being bound to other bodies The volume advances an understanding of embodiment as the central aspect of subjectivity its identity formation and its relations to others and the world The essence of embodiment is what connects us with others and in equal measure what distinguishes us from others The collection also addresses the centrality of the body to political and cultural activity targeting the role and constitution of norms in the regulation of bodies and the construction of spaces that bodies inhabit in constructing national and cultural identities It raises questions of how bodies and boundaries materialize in co constitutive relation to one another how bodies are situated and come to embody various bodies and intersections between different categories of identity and systems of value meaning and knowledge how the regulation and policing of bodies and the boundaries between them come to constitute bodies as being weak strong vulnerable or resilient and as having more or less fixed or fluid boundaries The chapters in the volume all demonstrate how individual human bodies are formed in relation to each other as they are regulated and distinguished from one another by larger collective bodies of nature culture science nation and state as well as by other human or non human animal bodies

**Body/Self/Other** Luna Dolezal,Danielle Petherbridge,2017-07-25 Examines the lived experience of social encounters drawing on phenomenological insights Body Self Other brings together a variety of phenomenological perspectives to examine the complexity of social encounters across a range of social political and ethical issues It investigates the materiality of social encounters and the habitual attitudes that structure lived experience In particular the contributors examine how constructions of race gender sexuality criminality and medicalized forms of subjectivity affect perception and social interaction Grounded in practical everyday experiences this book provides a theoretical framework that considers the extent to which fundamental ethical obligations arise from the fact of individuals intercorporeality and sociality

*Routledge Handbook of the Medical Humanities* Alan Bleakley,2019-07-31 This authoritative new handbook offers a comprehensive and cutting edge overview of the state of the medical humanities globally showing how clinically oriented medical humanities the critical study of medicine as a global historical and cultural phenomenon and medicine as a force for cultural change can inform each other Composed of eight parts the Routledge Handbook of the Medical Humanities looks at the medical humanities as a network and system therapeutic provocation forms of resistance a way of reconceptualising the medical curriculum concerned with performance and narrative mediated by artists as diagnosticians of culture through public engagement This book describes how the medical humanities can be used in and out of clinical settings acting as a point of resistance redistributing medicine's capital amongst its stakeholders embracing the complexity of medical instances shaping medical education promoting interdisciplinary understandings and recognising an identity for the medical humanities as a network effect This book is an

essential read for all students scholars and practitioners with an interest in the medical humanities      **New Feminist Perspectives on Embodiment** Clara Fischer,Luna Dolezal,2018-02-16 Despite several decades of feminist activism and scholarship women s bodies continue to be sites of control and contention both materially and symbolically Issues such as reproductive technologies sexual violence objectification motherhood and sex trafficking among others constitute ongoing pressing concerns for women s bodies in our contemporary milieu arguably exacerbated in a neoliberal world where bodies are instrumentalized as sites of human capital This book engages with these themes by building on the strong tradition of feminist thought focused on women s bodies and by making novel contributions that reflect feminists concerns both theoretically and empirically about gender and embodiment in the present context and beyond The collection brings together essays from a variety of feminist scholars who deploy diverse theoretical approaches including phenomenology pragmatism and new materialisms in order to examine philosophically the question of the current status of gendered bodies through cutting edge feminist theory      [Living With Dementia](#) Lars-Christer Hydén,Eleonor Antelius,2017-09-23 Traditionally dementia has been defined primarily in terms of loss loss of cognitive and communicative competencies loss of identity loss of personal relationships People living with dementia have been portrayed as increasingly dependent on others with their loved ones seen more as care givers than as spouses children and relatives However in the last two decades this view of the person living with dementia as an empty vessel has been increasingly challenged and the focus has shifted from one of care to one of helping people to live with dementia With contributions from an international range of expert authors Living with Dementia strongly advocates this new perspective through in depth discussion of what people with dementia and their loved ones can do and how they can actively make use of remaining resources Topics covered include How to involve people with dementia in collaborative activities in the home and the benefits this has on their cognitive and communicative abilities Ways in which identity can be presented and preserved through storytelling and the impact on identity of moving from home into residential care The benefits of a citizenship approach to dementia of recognising that a person living with dementia is an active agent with the right to self determination and the ability to exert power over their own lives This important new contribution to the dementia debate is truly enlightening reading for students across the full range of health and social care disciplines and offers a fresh perspective to existing practitioners and those who care for people with dementia      **Lost Bodies** Laura E. **Embodying the Monster** Margrit Shildrick,2002 A consistently interesting and provocative

work which offers a great deal in seven chapters It marks an innovative interdisciplinary approach to questions of

embodiment and subjectivity Disability and Society This is an elegantly written book which has as its main aim to rethink the idea of difference in the western imaginary through a consideration of two themes monsters and how these have come to define but potentially to deconstruct normality and the whole idea of vulnerability and the vulnerable and the extent to which such a state is one that all of us are constantly in danger of entering The theoretical and philosophical content Derrida Lacan Foucault Irrigaray Butler Levinas and Haraway in particular together with the range of empirical examples used to illustrate the arguments make the book an ideal one for third level undergraduates and for post graduates particularly those studying the sociology of embodiment feminist theory critical theory and cultural studies Shildrick accomplishes the task of making difficult ideas comprehensible without reducing them to the simplistic Sociology Written by one of the most distinguished commentators in the field this book asks why we see some bodies as monstrous or vulnerable and examines what this tells us about ideas of bodily normality and bodily perfection Drawing on feminist theories of the body biomedical discourse and historical data Margrit Shildrick argues that the response to the monstrous body has always been ambivalent In trying to organize it out of the discourses of normality we point to the impossibility of realizing a fully developed invulnerable self She calls upon us to rethink the monstrous not as an abnormal category but as a condition of attractiveness and demonstrates how this involves an exploration of relationships between bodies and embodied selves and a revising of the phenomenology of the body     *Congressional Record* United States.
