Building a Treaty on Business and Human Rights Surya Deva,David Bilchitz,2017-10-19 This book provides a sustained treatment of the politico legal context and content of a proposed business and human rights treaty **War, Work, and Want** Randall Hansen,2023-08-29 In War Work and Want Randall Hansen focuses on how the oil shock transformed not just the economy proper and the geopolitics of the Middle East region but also the global circulation of people and capital for decades afterward Hansen asks why against all expectations global migration tripled after 1970 Arguing that the OPEC oil crisis explains everything he shows how war migration and the desire for ever cheaper products made by migrants led to a massive upsurge in global migration after 1973

The 360° Corporation Sarah Kaplan,2022-08-18

Companies are increasingly facing intense pressures to address stakeholder demands from every direction consumers want socially responsible products employees want meaningful work investors now screen on environmental social and governance criteria clicktivists create social media storms over company missteps CEOs now realize that their companies must be social as well as commercial actors but stakeholder pressures often create trade offs with demands to deliver financial performance to shareholders How can companies respond while avoiding simple greenwashing or pinkwashing This book lays out a roadmap for organizational leaders who have hit the limits of the supposed win win of shared value to explore how companies can cope with real trade offs innovating around them or even thriving within them Suggesting that the shared value mindset may actually get in the way of progress bestselling author Sarah Kaplan shows in The 360 Corporation how trade offs rather than being confusing or problematic can actually be the source of organizational resilience and transformation

Deliver unprecedented customer value and seize your competitive edge with a transformative digital supply network. Digital tech has disrupted life and business as we know it and supply chain management is no exception. But how exactly does digital transformation affect your business? What are the breakthrough technologies and their capabilities you need to know about? How will digital transformation impact skills requirements and work in general? Do you need to completely revamp your understanding of supply chain management? And most importantly, How do you get started? *Digital Supply Networks* provides clear answers to these and many other questions. Written by an experienced team comprised of Deloitte consultants and leading problem driven scholars from a premier research university, this expert guide leads you through the process of improving operations, building supply networks, increasing revenue, reimagining business models and providing added value to customers, stakeholders and society. You'll learn everything you need to know about Stages of development, roles, capabilities and the benefits of DSN. Big data analytics, including its attributes, security and authority. Machine learning, Artificial Intelligence, Blockchain, robotics and the Internet of Things. Synchronized planning, intelligent supply and digital product development. Vision attributes, technology and benefits of smart manufacturing, dynamic logistics and fulfillment. A playbook to guide the digital transformation journey. Drawing from real world experience and problem driven academic research, the authors provide an in depth account of the transformation to digitally connected supply networks. They discuss the limitations of traditional supply chains and the underlying capabilities and potential of digitally enabled supply flows. The chapters burst with expert insights and real life use cases grounded in tomorrow's industry needs. Success in today's hyper competitive, fast paced business landscape, characterized by the risk of black swan events such as the 2020 COVID-19 global pandemic, requires the reimagination and the digitalization of complex demand supply systems, more collaborative and connected processes and smarter, more dynamic data driven decision making, which can only be achieved through a fully integrated Digital Supply Network.
