Christopher Frost,2018-10-04 Serene has been on the run for most of her life She has no recollection of her past even her name is not her own Serene knows only one thing for certain She is werewolf It is not until she reaches the town of Sufferen that she finally finds a small pack of runaways that are also werewolves They take her in but there is a heavy price attached to their generosity Their Alpha Washington forces Serene into a life of prostitution Serene decides that this is not what she wants for her life or the other female werewolves Her only choice is to revolt against the pack She may be powerful enough to stop Washington but not alone Then she meets Chase Aires an angel and descendent of the God of War His power is unlike anything she has ever witnessed With his help she can overthrow Washington and take control leading the others out of a life of prostitution and misery Gateway Wing ,1998 **The Life and Words of Chris** John Cunningham Geikie,1891

Media Ethics and Self-regulation Chris Frost,2000 The British press has been accused of drinking in the Last Chance Saloon Now with the coming of the new millennium many fear that broadcasters are also getting a taste for the commercially popular cocktail of sensation and intrusion that it sells But does it have to be like that Are journalists doomed to ignore stories about important public interest issues in favour of titillating tales that pander solely to the public s prurient curiosity Are docusoaps and current affairs series based on questionable evidence replacing the award winning documentary programmes of past years Media Ethics and Self Regulation looks closely at the moral dilemmas facing journalists in their day to day working lives and examines the self regulatory bodies that police the various codes of practice **Surrey**

Treason is a word with many connotations a word applied to a host of varied offenses throughout the history of humanity These essays by Floyd Seyward Lear analyze the development of the political theory of treason from its beginning in Roman Law to its transformation in the Germanic custom of the early Middle Ages The author has presented treason as a political idea possessing historical continuity though varying from age to age as it follows the evolution of political authority itself These studies trace the shifting emphasis in crimes against the state from acts directed against a central absolutist authority to acts involving the personal relationship of a pledged troth and individual fealty This is a shift from the concept of majesty in Roman law to the concept of fidelity in Germanic law with the corollary shift from allegiance as an act of deference to allegiance as a token of mutual fidelity These ideas are examined chronologically across an interval extending from archaic Roman law to incipiently feudal forms from which modern theories of treason allegiance and sovereignty derive Contemporary concepts in these political areas can hardly be understood apart from their historical origins Broadly considered this work is intended as a contribution to intellectual history Further this collection represents the synthesis of material widely scattered in the primary sources and relevant secondary works The two concluding bibliographical essays are intended as a general survey of the literature relevant to these studies in Roman and Germanic public law Descriptive and interpretive works which deal with treason and its allied aspects of political and legal theory are not numerous in the English language
