Talusan and many others Wallace also shares his own experiences as a midwestern transgender journalist and activist who was fired from his job as a national reporter for public radio for speaking out against objectivity in coverage of Trump and white supremacy. With insightful steps through history Wallace stresses that journalists have never been mere passive observers. Using historical and contemporary examples from lynching in the nineteenth century to transgender issues in the twenty-first, Wallace offers a definitive critique of objectivity as a catchall for accurate journalism. He calls for the dismissal of this damaging mythology in order to confront the realities of institutional power, racism, and other forms of oppression and exploitation in the news industry. *The View from Somewhere* is a compelling rallying cry against journalist neutrality and for the validity of news told from distinctly subjective voices.
