, 1961 **A Manual for Manuel** Julio Cortázar, 1978 A Cuban of our acquaintance describes Cortázar as the best French writer in Spanish. Not only because he has the candor to set his fiction in Paris where so many South American writers have found breathing room but because he has a truly French feel for the miscellaneous kitchen sinky birds eye texture of dally life. In *A Manual for Manuel* you'll meet Andres Marco, Francine Lonstein, Lucienne Patricio and Susanna a mixed group of French intellectuals and Argentines who don't know what they're doing in Paris. Together they make up the Screwery a collective that's more pataphysical than strictly revolutionary involved in projects as diverse as collecting a scrapbook of newspaper clippings for Manuel Patricio and Susanna's baby son guerrilla theatre in department stores, counterfeiting and currency smuggling and grandest of all the kidnapping of a bigwig from a multinational corporation in return for the release of captured revolutionaries in Latin America. Cortázar's narrative as we've come to expect is totally fractured into digressions, essays, undifferentiated dialogue, philosophical meditation, Finnegan's Wake-ish pun prose, letters, Telexes, etc. Even the book's big, wonderful action scene this charming crew's disastrous kidnap attempt is muffled under all the stylistic swaddling. Cortázar is often at his best here writing about a large group of friends making them individual yet coherent smart people being confused together. But the book suffers by comparison with his earlier, more substantial *Hopscotch* even in Rabassa's adept and sympathetic translation. *Manuel* seems to lack the intensity and rich ambience we look for in prime Cortázar. *Kirkus*
